“THE DETAILS ARE NOT THE DETAILS. THEY MAKE THE DESIGN”

- CHARLES EAMES

Details zijn een klein onderdeel van het geheel. Toch kunnen zij het geheel maken of breken. Doorware is zo’n allesbepalend detail. Het draagt in sterke mate bij aan het totaaldesign. Het is mede dankzij de veelvuldige samenwerkingen met designers dat de producten van FORMANI® in de designscene bekend staan als meer dan een detail. Zoals Charles Earnes het verwoordt: ‘They make the design.’ Die designkracht kenmerkt ook de serie die Jan des Bouvrie recent voor FORMANI® ontwierp. De collectie van de designer, die door velen wordt gezien als één van de ‘founding fathers’ van het hedendaagse Dutch Design, is een ode aan Nederlands minimalisme en eenvoud.

Onze samenwerkingen beperken zich echter niet tot de gevestigde orde zoals Piet Boon, Edward van Vliet, Tord Boontje, Bob Manders en Mathieu Bruls. Vanuit de drive om het nieuwe te verwelkomen, zijn we trots dat we sinds 2016 met de Nederlandse ‘rising star’ Bertram Beerbaum samenwerken. Het nieuwe opzoeken en onszelf uitdagen doen we ook over landgrenzen heen. Want, hoewel Dutch at heart, maakt sinds kort de Spaanse designgrootheid Lázaro Rosa-Violán deel uit van de FORMANI® designfamilie. Ook ons partnernetwerk sluit aan bij de drive om over landgrenzen heen te kijken. De samenwerkingen met partners in ruim veertig landen wereldwijd moedigt aan tot inleven en openstaan voor de schoonheid van andere culturen. OPEN UP! neemt u mee naar tal van die landen. Samen op wereldreis! Omdat samen zoveel leuker is en ons zoveel beter maakt. OPEN UP!

Pim Aarts
Owner & Managing Director

Although details are only a small part of the whole, they can make it or break it. Door fittings are one of those pivotal details and play a leading role in the overall design. It is partly thanks to the numerous collaborations with designers that FORMANI®’s products have established a reputation in the design world as being more than just a detail. As Charles Eames puts it: ‘They make the design.’ This design dynamism is the hallmark of the series that Jan des Bouvrie recently put together for FORMANI®. Considered by many as one of the founding fathers of the current ‘Dutch Design’, his collection is an ode to Dutch minimalism and simplicity.

That said, our collaborations are not bound by the established order such as Piet Boon, Edward van Vliet, Tord Boontje, Bob Manders and Mathieu Bruls. Eager to welcome new people on board, we are proud to have been working with the Dutch rising star Bertram Beerbaum since 2016. Our trailblazing nature and thirst for challenge goes beyond national borders. Despite being Dutch at heart, the Spanish design maestro Lázaro Rosa-Violán has recently joined the FORMANI® design family. Our network of partners also reflects our drive to look beyond borders. The collaborations with partners in more than forty countries across the globe stimulate us to immerse ourselves in and be open to the beauty of other cultures. OPEN UP! takes you on a journey to countless countries – a journey that we undertake together. After all, being together makes the experience much more exciting and makes us that much better. OPEN UP!

MINIMAL CHIC

De Nederlandse ontwerper Niels Maier van Studio Niels ontwierp dit originele monochromatische huis. Zijn werk wordt gekenmerkt door het gebruik van zuivere lijnen. Dit zorgt voor een open ruimte en meer licht in de woning. De op maat gemaakte interieurs en objecten zijn vaak gebaseerd op een minimalistische en tijdloze benadering waarin comfort centraal staat. Voor zijn interieurs maakt Niels Maier volop gebruik van rijke, hoogwaardige materialen die vakmanschap uitstralen.

Dutch designer Niels Maier from Studio Niels designed this original monochromatic house. His work is characterized by its use of clean lines which opens up the space and adds lightness to architecture. The tailored interiors and objects are often based on a minimal and timeless approach with a focus on comfort. For his interiors Niels Maier makes extensive use of rich, high-quality materials defined by their craftsmanship.

ALL-WHITE DOOR FITTINGS

De all-white-benadering zorgt voor een krachtig basisconcept. Dankzij deze benadering lopen oud en nieuw naadloos in elkaar over. Het One-deurbeslag van FORMANI® sluit aan bij dit concept. Het huis is laag voor laag ontworpen op basis van deze all-white-benadering.

The all-white architectural approach creates a strong basic concept. This approach ensures that the old and new blend together flawlessly. The One collection of door fittings by FORMANI® connects to this concept. The house was designed layer by layer based on this all-white approach.

ESSENTIALS IN A BATHROOM

Badkameraccessoires zijn vaak de laatste laag in badkamers en toiletten, ondanks het feit dat ze bepalend zijn voor het eindresultaat en de uitstraling van de ruimte. De combinatie van roestvast staal en wit Corian creëert een nieuwe standaard in badkameraccessoires: badkamerbasics worden badkameressentials.

Bathroom accessories are often the last layer in bathrooms and toilets. Yet, they determine the final result and look of the room. The combination of stainless steel with white Corian creates a new standard in bathroom accessories: they turn bathroom basics into essentials.

ONE EXPERIENCE

The Jane, het beroemde restaurant van Michelin-sterrenchef Sergio Herman, is tijdens de Restaurant and Bar Design Awards in Londen uitgeroepen tot het mooiste restaurant te wereld. De ‘fine dining meets rock-’n-roll’ visie van Sergio Herman en chefkok Nick Bril is ontwikkeld in samenwerking met Studio Piet Boon. Samen toverden zijn de kapel van een voormalig militair ziekenhuis in Antwerpen om tot een high-end, eigentijds restaurant met internationale allure. De hardware uit de One serie draagt bij aan bij de beleving waar het bij de Jane om te doen is.

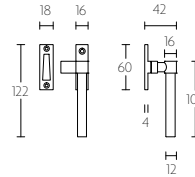

The famous restaurant of Michelin-starred chef Sergio Herman The Jane, was named the most beautiful restaurant in the world at the Restaurant & Bar Design Awards in London. This fine dining meets rock-’n-roll vision of Sergio Herman and chef Nick Bril was developed in collaboration with Studio Piet Boon. Together, they transformed the chapel of the former military hospital in Antwerp into a high-end, contemporary restaurant with international appeal. The fittings from the One series add to the authentic The Jane experience.

NATURAL LOOK

In de perfect getrimde, uitgestrekte weilanden van Millbrook Resort, Arrowtown is een groep spitse betonnen vormen rond een aantal binnentuinen gearrangeerd. De met verweerd hout afgeschermd terrassen zijn ideaal voor elk moment van de dag en elk seizoen. Verticale elementen zoals daklicht, dakkapel en schoorsteen markeren de daklijn.

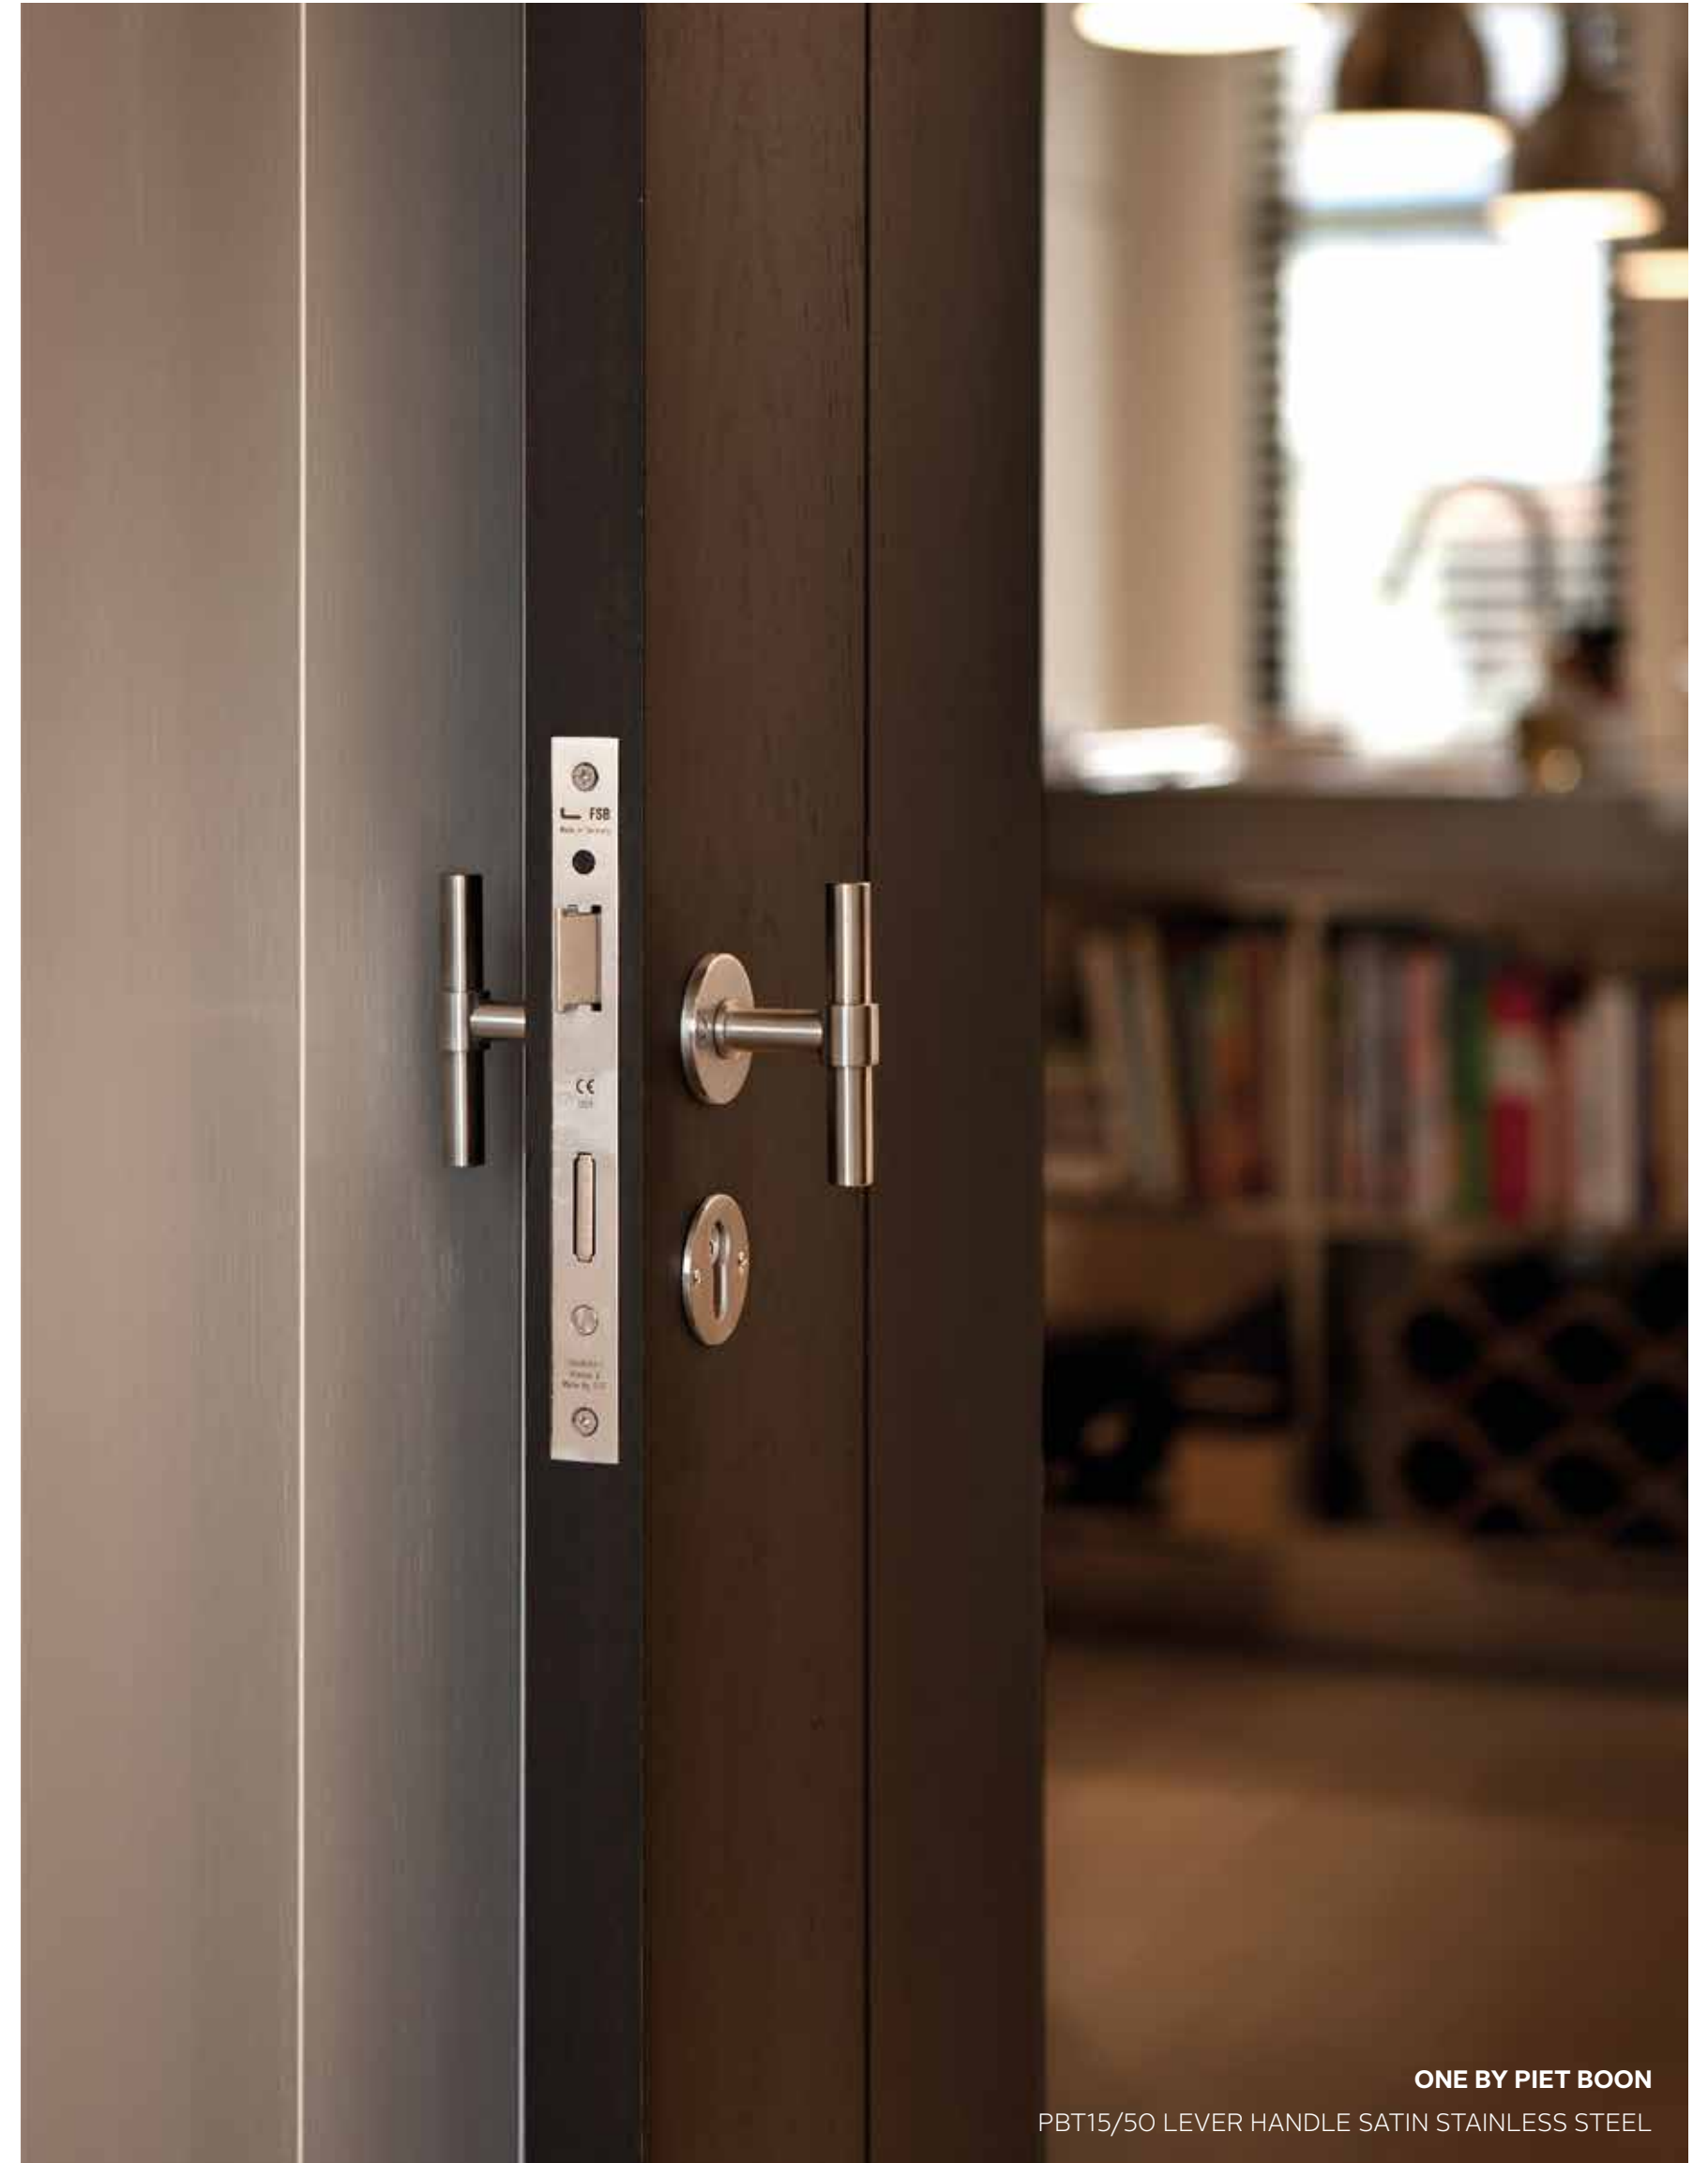

Het interieurdesign met natuurlijke materialen zoals hout en steen en frisse wittinten geeft uitdrukking aan het gestructureerde ritme van het geheel. Houten palen, uitgesproken dakspanten en balken vormen een visuele interactie met het tuinterras.

Het eigentijdse design van de hardware die is ontworpen door Piet Boon draagt bij aan de interactie tussen het voortdurend veranderende landschap en het structurele ritme van het interieur. Het geborstelde roestvast staal past bij de natuurlijke materialen die zijn gebruikt en interageert met de subtiele, fijne details.

Set within the manicured, rural grassland of Millbrook Resort, Arrowtown, a group of concrete clad gabled forms are arranged axially around a series of garden courtyards. The weathered, timber screened terraces are designed to suit any time of day and each season. Vertical elements such as roof lights, dormers and chimneys effortlessly articulate the rooflines.

The interior program, incorporating natural materials of timber, stone and fresh white tones, expresses a structural rhythm of the dwelling. Timber posts, expressed roof trusses and beams interact visually with the garden terrace.

The contemporary design of the hardware designed by Piet Boon contributes to the interaction between the ever changing landscape and structural rhythm of the interior. The brushed stainless steel matches the natural materials that are used and interest with their subtle fine details.

SIMPLE SOPHISTICATION

Gevoed door de ‘simple sophistication’ filosofie van Piet Boon is Huys, gelegen aan 404 Park Avenue South, getransformeerd tot een elegant thuis. Studio Piet Boon is meester in het design van totaalconcepten. Huys 404 weerspiegelt dit meesterschap van voorgevel tot in de styling van de publieke ruimtes en van overkoepelende binnenhuisarchitectuur tot in de details van de meer dan 50 studio's, appartementen en penthouses die Huys telt.

Nurtured by the simple sophistication philosophy of Piet Boon Huys, located on 404 Park Avenue South, was transformed into an elegant home. Studio Piet Boon is a master in the design of total concepts. Huys 404 reflects this mastery from its façade all the way through to the styling of the public spaces and from the integrated indoor architecture to the finest details observed in the more than fifty studios, apartments, and penthouses in the building.

CUSTOM MADE DOORWARE

De gebruikte hardware draagt bij aan de details die Huys 404 kenmerken. Om het totaalconcept tot leven te laten komen, maakte Piet Boon gebruik van zowel het deurbeslag als het raam- en meubelbeslag van FORMANI®. Om op alle fronten te voldoen aan de Amerikaanse wetgeving is het deurbeslag voor dit project deels op maat gemaakt.

The fittings that have been used contribute to the detailed approach that characterizes Huys 404. Piet Boon used the door, window, and furniture fittings from Formani® to breathe life into this total concept. In order to adhere to American legislation, the door fittings for this project had to be custom-made.

PURE

In Oostzaan, nabij Amsterdam, ligt het in 2011 gerealiseerde hoofdkantoor en de multifunctionele showroom van Piet Boon Studio waar in totaal inmiddels 55 mensen werkzaam zijn. Kenmerkend voor het gebouw, dat net als het interieur de handtekening van de wereldberoemde Nederlandse ontwerper draagt, is de sobere puurheid. Een puurheid die haar basis vindt in strakke lijnen en verticaliteit.

The Piet Boon Studio headquarters and multifunctional showroom were completed in 2011 and is located in Oostzaan, near Amsterdam. By now 55 employees work in these offices. The sober purity of the building and its interior reads as the signature of the world-famous Dutch designer. This purity is defined by the clean lines and verticality.

WHITE SHADOWS

Opvallend is de ruimtelijke vrijheid van het multifunctionele hoofdkantoor waar de dynamische, getalenteerde, internationale, professionele ontwerpers en stylisten werken. Het ontwerp is gericht op de toekomst. Enerzijds omdat het gebouw mooier wordt met de jaren. Anderzijds omdat het zich moeiteloos aanpast aan de groei van de succesvolle interieur-, exterieur- en productdesignstudio. De gedisciplineerde vormgeving, in combinatie met de witte muren en de inval van het licht, zorgt voor een elegant spel van schaduwen. Het is een vertaling van de filosofie die door Piet Boon wordt omschreven als 'energy neutral'. Een filosofie die staat voor een balans tussen functionaliteit, esthetiek en individualiteit.

Most striking is the spatial freedom of the multifunctional head office which is home to an international and dynamic team of talented and experienced designers and stylists. The design is focused on future. Firstly, this focus is defined by the building itself that only becomes more beautiful with age. Secondly, the building can effortlessly adapt to the growth of this successful interior, exterior, and product design studio. The disciplined design combined with the white walls and natural light creates an elegant dance of shadows. It is a translation of a specific philosophy that Piet Boon calls 'energy-neutral'. This philosophy searches for a balance between functionality, aesthetics, and individuality.

EFFORTLESS CHIQUE DOORWARE

Ook al oogt de doorware-serie Two by Piet Boon in eerste instantie eenvoudig, toch is dit een van de meest bewerkelijke producten uit de FORMANI®-collectie. De assemblage gaat gepaard met het nodige handwerk waarbij elk houten stukje afzonderlijk uitgefreesd wordt en als een puzzel met het roestvast stalen onderdeel in elkaar wordt gezet.

While the Two series by Piet Boon exudes simplicity, it is, in fact, one of the most elaborate products in the FORMANI® collection. The assembly of these fitting is completed with essential handwork that sees every piece of wood milled independently and fitted together with the stainless parts like the pieces of an intricate puzzle.

TWO BY PIET BOON
PBL22/50 LEVER HANDLE SATIN STAINLESS STEEL / OAK WOOD
PBWC23 PRIVACY SET SATIN STAINLESS STEEL

STUDIO JOB

In het oog springt de hoeveelheid kunst in het pand in Oostzaan. Een veelvoud aan objecten van Studio Job, waaronder de gouden wolkenkrabber in de werkruimte van Piet Boon zelf. Ondanks de enorme hoeveelheid glazen wanden biedt het ruimtelijke interieur de kunstwerken een podium om hun verhaal te vertellen. Verhalen die de visuele ruimte vullen.

The large number of works of art the in building in Oostzaan is striking. Many of the pieces are by Studio Job, including the golden skyscraper in Piet Boon's office. Despite the many glass walls, the spacious interior provides the artworks with a stage from which they can tell their unique narrative. Narratives that fill the visual space.

TWO BY PIET BOON
PB22/160 CABINET HANDLE SATIN STAINLESS STEEL / OAK WOOD BLACK

PIECES FALLING TOGETHER

De toegepaste doorware-serie Two by Piet Boon heeft veel gemeen met het hoofdkantoor. De lay-out van het gebouw is een afgeleide van de customer journey met twee routings; één voor de bezoekers van de studio en één voor de medewerkers. Twee routings die samen één vormen, zoals ook de bewerkelijke eikenhouten ontwerpen uit de Two-serie stukje voor stukje, gepaard met het nodige hand- en meetwerk, als een puzzel samenvallen.

Piet Boon designed the Two series of door fittings that was used in the building. This series has a great deal in common with the head office. The layout of the building was inspired by the customer journey and has two routings: one for visitors to the studio and the other one for staff. Together, these routings become one, just like the elaborate oak designs from the Two series that has been carefully assembled piece by piece with the necessary handwork and precision to fit together like the pieces of a puzzle.

TWO BY PIET BOON
PBL22/50 LEVER HANDLE SATIN STAINLESS STEEL / OAK WOOD BLACK

TRIPLE TWO

Two by Piet Boon ontpopt zich in drie gedaantes. Er is een combinatie van roestvast staal met naturel eikenhout, een lijn bestaande uit roestvast staal met zwartgemaakt eikenhout en een 100% roestvast stalen uitvoering. Alle drie de uitvoeringen komen terug in het pand, alwaar de open ruimtes met de witte en zwarte deuren volop aanmoedigen tot veelvuldig combineren.

Two by Piet Boon unveils itself in three different expressions. First there is the combination of stainless steel with natural oak; then there is the line made from stainless steel and black oak; and third is the 100% stainless steel line. All three finishes are found throughout the building where open spaces with white and black doors animate endless combinations.

THE NETHER LANDS BATH MEN

LOCATION: BATHMEN, THE NETHERLANDS

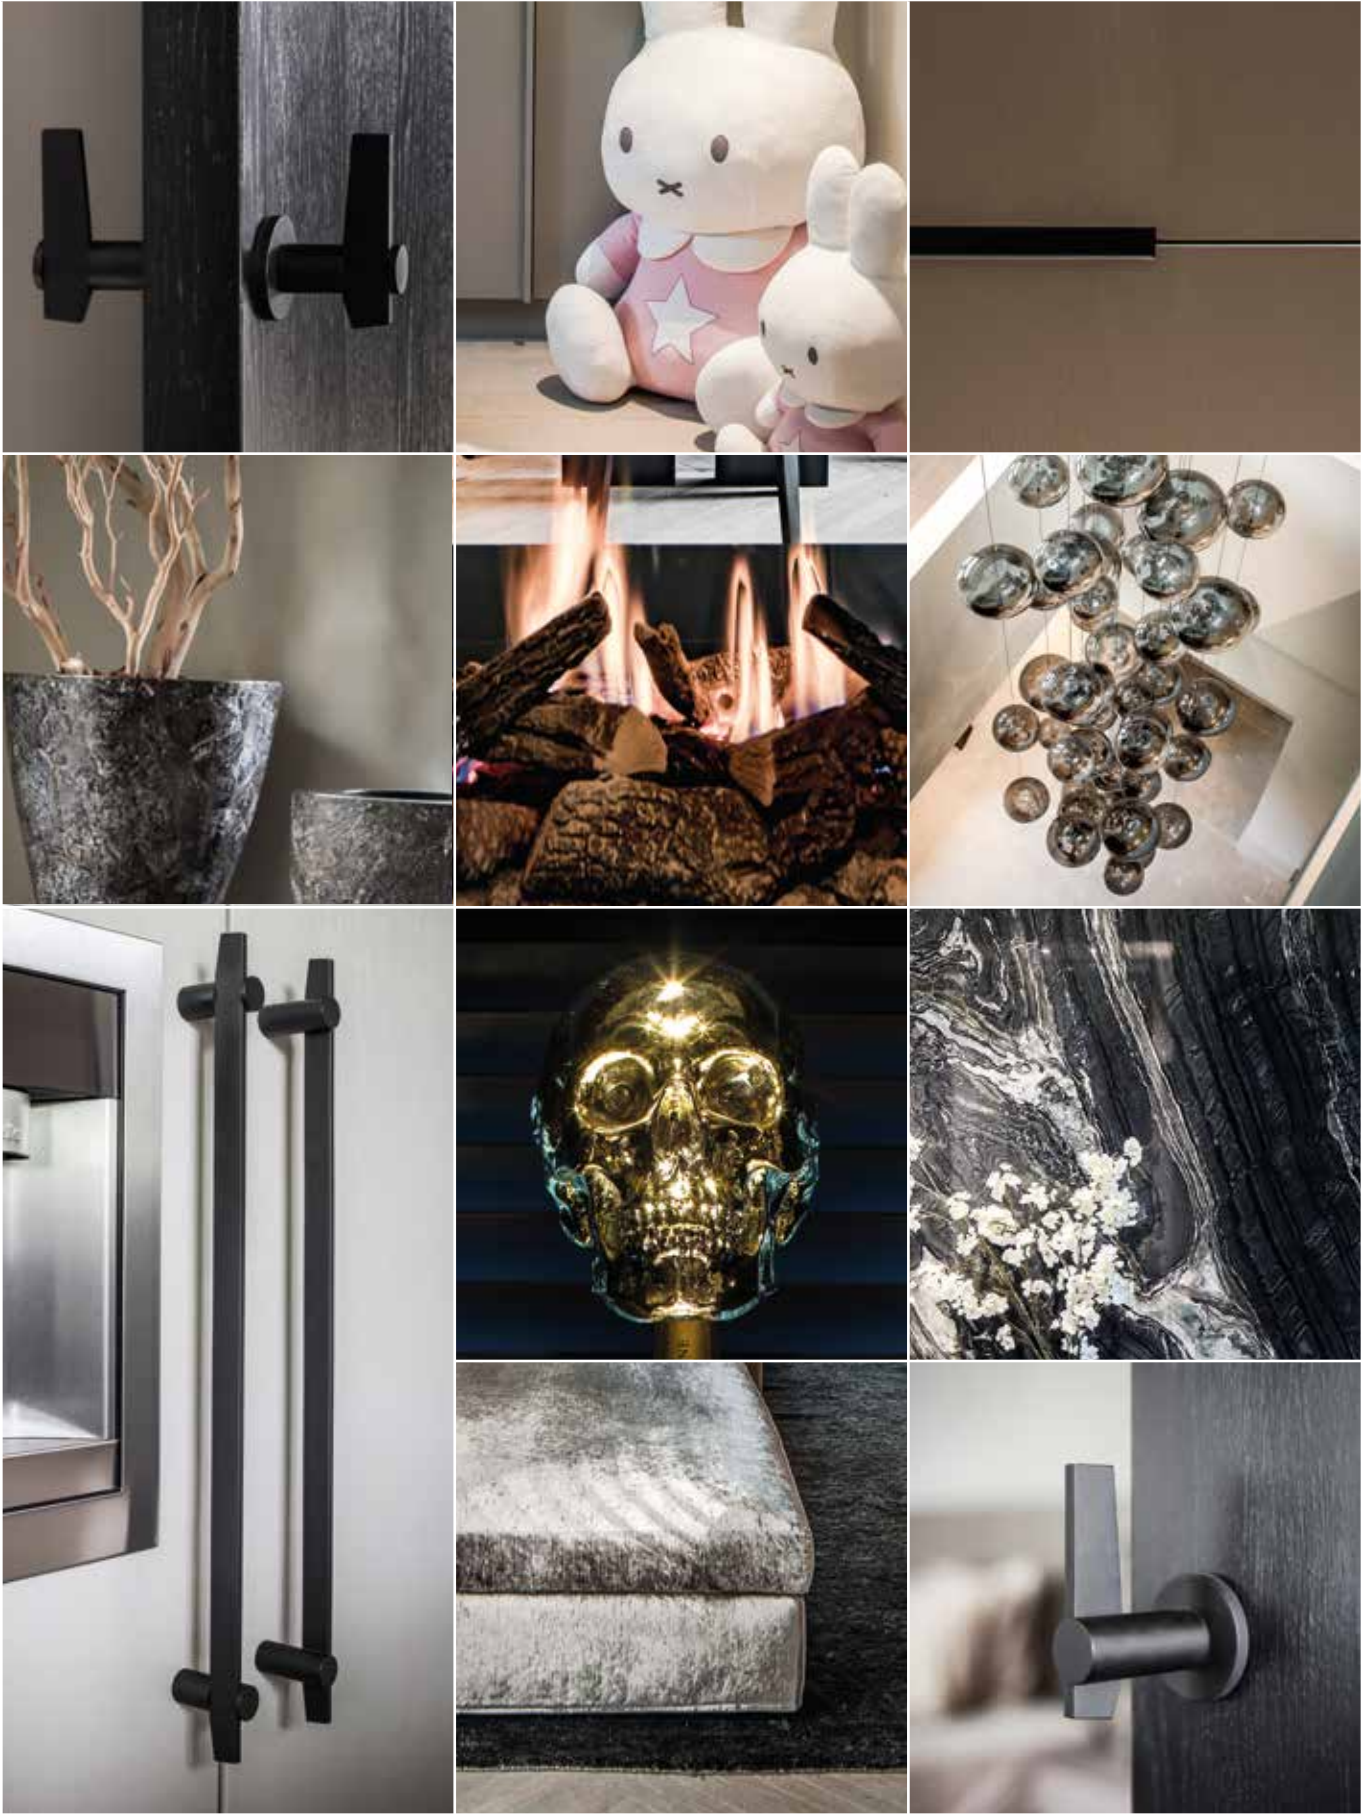

BUILDING: VILLA 'DE MENOP'

INTERIOR DESIGN: BERTRAM BEERBAUM (KABAZ ARCHITECTS)

PHOTOGRAPHY: PETER BAAS

TENSE BY BERTRAM BEERBAUM
BB100 LEVER HANDLE SATIN BLACK

LONG LASTING HISTORY

Deze statige woning met haar prachtige omgeving staat bekend als landgoed 'De Menop'. De betekenis hiervan voert ons helemaal terug naar de 17e eeuw toen precies deze plek de meest geschikte plek was voor het oversteken van het naastgelegen riviertje. Al mennend met paard en wagen trotseerde men de rivier. Op de plek van het huidige landhuis stond een kroeg die de mensen, al wachtend op laag water, voorzag van de nodige borrels.

This stately house and its beautiful surroundings are known as the 'De Menop' estate. The meaning of 'De Menop' takes us all the way back to the 17th century, when this was the best place to cross the nearby stream. The Dutch verb 'mennen' means to lead a horse by the reins and that is exactly how people crossed the river: by horse and carriage. At the site of the current country house there used to be a pub that provided people with drinks until the water reached a low enough level for them to venture across.

TENSE BY BERTRAM BEERBAUM
BB500 PULL HANDLE SATIN BLACK

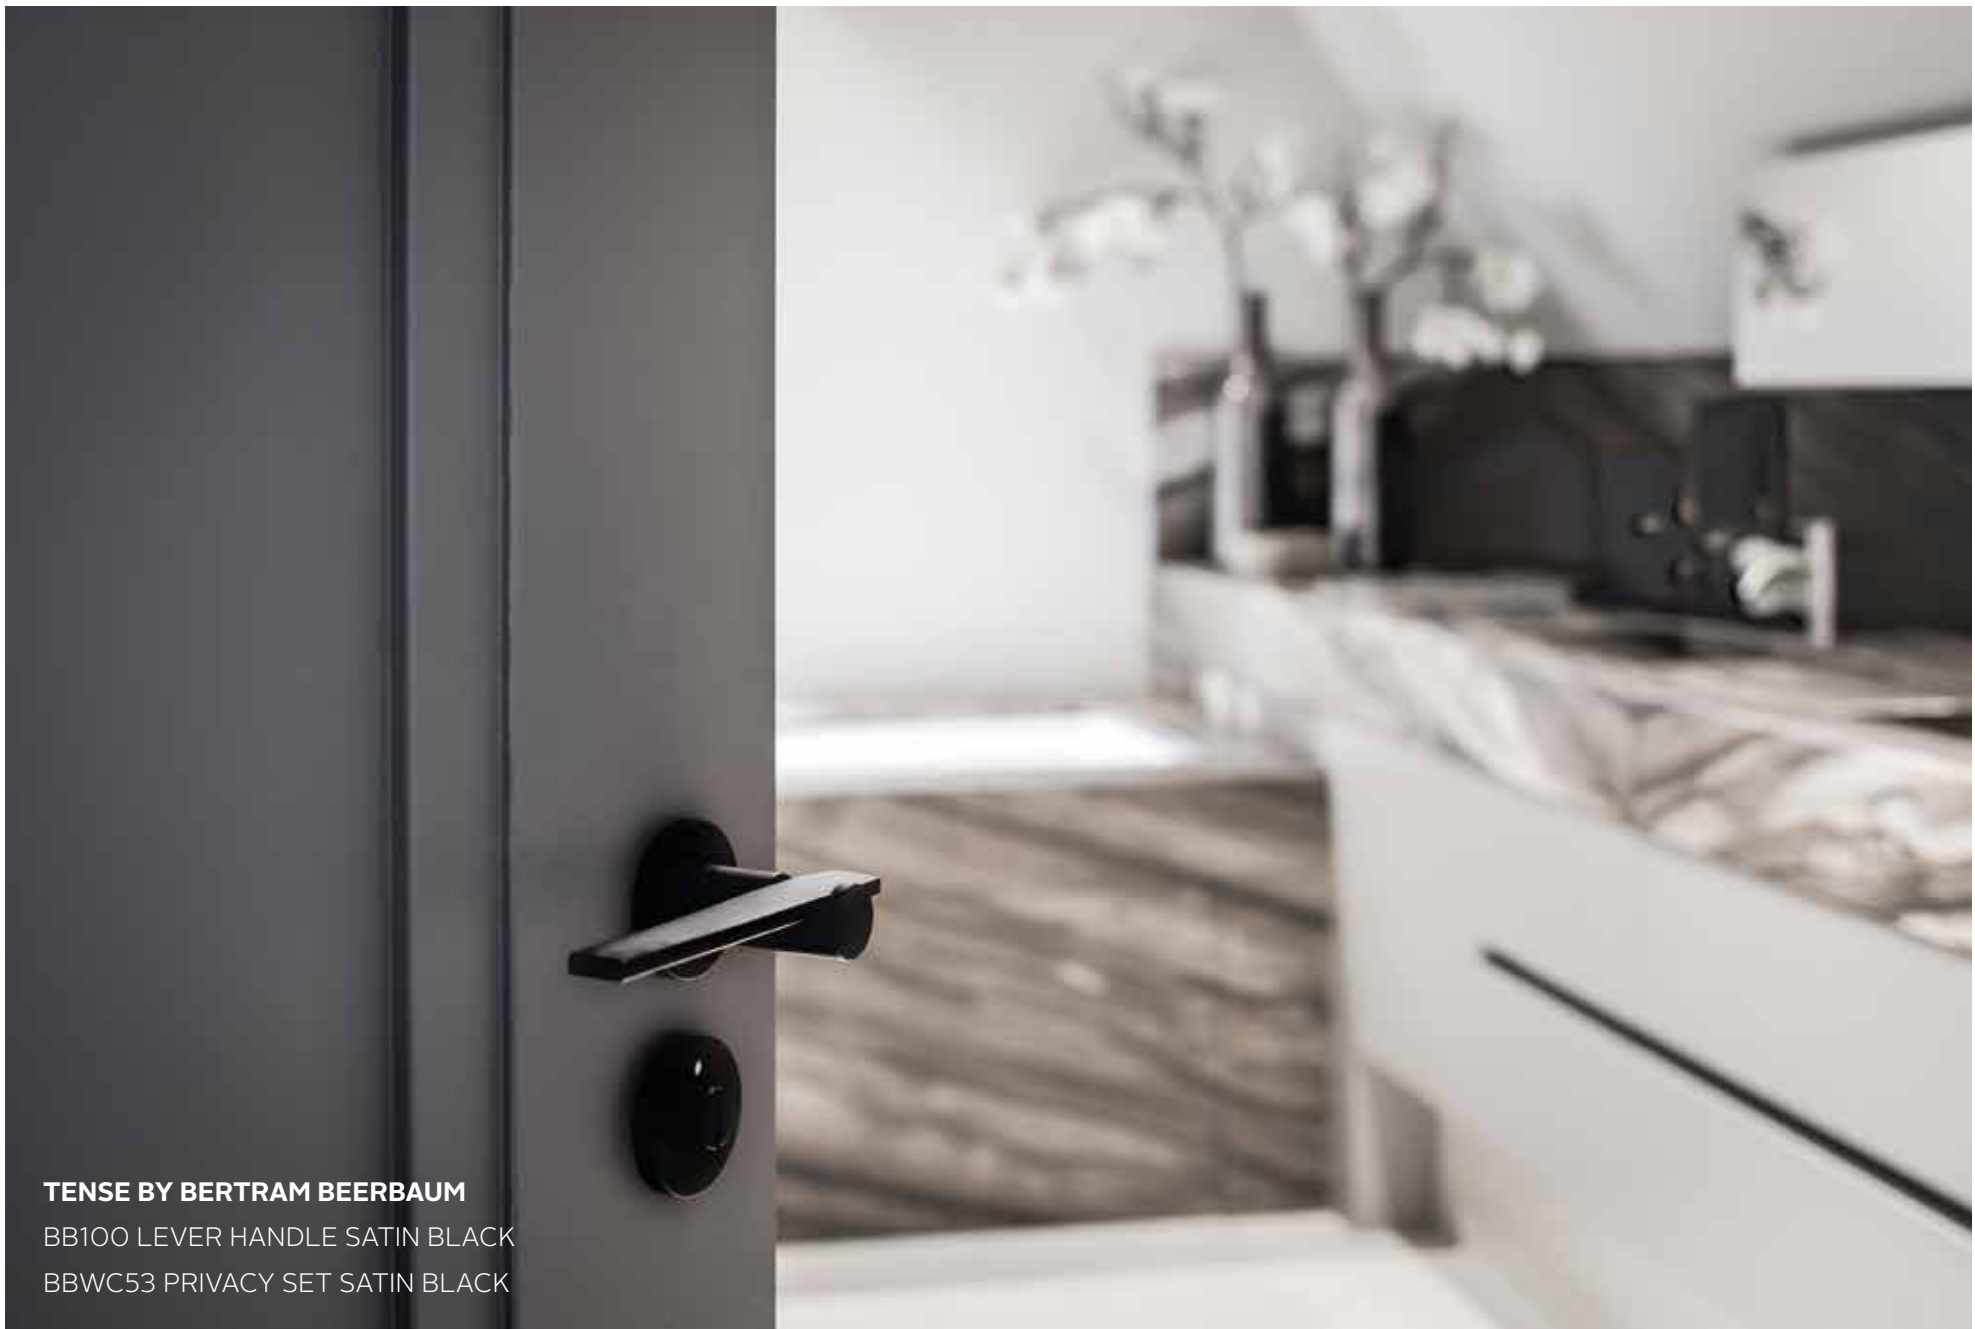

HOUSE WITH TWO FACES

Eind 19e eeuw werd er voor het eerst een landhuis gebouwd dat enkele jaren geleden door de huidige bewoner werd afgebroken en in een korte periode weer opnieuw opgebouwd in de authentieke stijl van weleer, zij het dit keer twee keer zo groot.

Opvallend zijn de twee gezichten die het gebouw heeft. Authenticiteit aan de buitenkant maar een 'state of the art' interieur aan de binnenkant, voorzien van de laatste technische snufjes. Bertram Beerbaum (Kabaz architecten) is verantwoordelijk voor de bijna 'Godfather-achtige' sfeer in het interieur die een mondain, groots en warm gevoel uitstraalt.

The first country house on this site was built at the end of the 19th century. A few years ago the current occupant knocked it down. Within no time it had been rebuilt in the authentic style of yesteryear, albeit at twice the size.

One of the most noticeable features of the house is that it has two faces: an historic exterior and a state-of-the-art interior which is equipped with all the latest technical gadgets. Bertram Beerbaum of Kabaz Architects is responsible for the almost Godfather-like atmosphere inside the house, which exudes sophistication, grandeur, and warmth.

MAINTAINING THE CONCEPT

Het spreekt voor zich dat Bertram Beerbaum zijn eigen Tense serie toegepast heeft. Het gebruik van de zwarte deurkrukken, grepen en raamkrukken draagt bij aan de warme uitstraling en de grootsheid die de woning uitstraalt.

It is only natural that Bertram Beerbaum used fittings from his own Tense series in this house. The use of black door and window handles, adds to the atmosphere of warmth and grandeur which the house exudes.

TENSE BY BERTRAM BEERBAUM
BB200VB KNOB SATIN BLACK

FIRM LUXURY

De woning is voorzien van de meest luxe voorzieningen. Zo zijn er los van diverse woonkamers, keuken, eetkamer, kantoor en diverse andere ‘basisruimtes’ ook een bar, cinema en gym te vinden.

The house features some luxurious amenities. For example, apart from the various living rooms, the kitchen, the dining room, the office, and various other ‘basic areas’, it also has a bar, a cinema, and a gym.

CHAMELEON

De collectie Tense bewijst kamelon-achtige trekjes te hebben door haar multifunctionele toepasbaarheid. Zoals de Tense deurkruk letterlijk een brug vormt tussen een rond en een rechthoekig deel, zo slaat Tense figuurlijk een brug tussen het extreem uiteenlopende exterieur en interieur. Van alle toegepaste materialen en producten is het Tense-deurbeslag namelijk het enige element dat zowel binnen als buiten wordt toegepast.

The Tense collection, with its multi-functional features, is reminiscent of a chameleon. In the same way it literally forms a bridge between a round section and a rectangular section, it also metaphorically bridges the gap between the contrasting exterior and the interior. In fact, of all the materials and products that were used to build the house, the only element that is used both inside and outside are the Tense door fittings.

VERNACULAR ELEMENTS

Attiq Ahmed, directeur van AEDL designstudio (Lahore, Pakistan) en hoofddocent Architectuur aan het National College of Arts in Lahore, ontwierp deze bijzonder lichte woning in Lahore Pakistan, die voorzien is van een open woonkamer en ontvangsthall. Met behulp van lokale elementen, zoals een 'jali' of metalen scherm, is er een reeks ruimtes gecreëerd die samen één geheel vormen als de schermen open zijn. Als de schermen gesloten zijn, wordt de open woonkamer onderverdeeld in verschillende kleinere ruimtes. Een dubbelhoog atrium met een glazen plafond zorgt voor een zee aan natuurlijk licht aan de ene kant van de open ruimte. Voor het interieurdesign is gebruik gemaakt van de Aeternum Pvt. Limited, een design studio in Pakistan, acteerde als uitvoerend partner van het project, en had de cruciale coördinerende rol in het samenstellen van alle elementen en producten voor het project. Tense-serie van Bertram Beerbaum, die eens te meer bewijst internationaal inzetbaar te zijn voor diverse uiteenlopende objecten en stijlen.

Attiq Ahmed, managing director of AEDL design studio (Lahore, Pakistan) and Associate Professor of Architecture at the National College of Arts in Lahore, designed this light-filled residence in Lahore, Pakistan. The residence centres on a large open-plan living room and reception area. The use of vernacular elements such as the jali latticed metal screen creates a sequence of spaces that flow together harmoniously when the screens are open and partition the room into smaller activity areas when closed. A double-height atrium with a glass roof allows natural light to enter at one end of the open-plan reception area. Aeternum Pvt. Limited, a design studio in Pakistan, acted as executing partner of the project, providing crucial support in achieving the end result and tying together the elements and product details of the interior. The Tense series by Bertram Beerbaum was used to complete the interior design, which has once again proven itself to be internationally applicable for a wide variety of objects and styles.

TAILOR-MADE SUIT

Een huis ontwerpen dat binnen het geldende bestemmingsplan de opdrachtgever gelukkig maakt, is voor Kabaz de ultieme uitdaging. De opdrachtgever had een modern, strak huis voor ogen met een vriendelijke uitstraling. De bouwvlek van de villa in Laren kende echter een paar lastige beperkingen. Het combineren van de wensen met de mogelijkheden van de kavel resulteerde in een huis dat als een maatpak past.

For Kabaz the ultimate challenge is to design a house that fits the zoning plan and makes the client happy. The client wanted a modern, sleek house that still had a warm and friendly look. However, the building site for the mansion in Laren had a few tricky obstacles. Combining the wishes with the possibilities of the plot resulted in a house that fits the needs of the client like a tailor-made suit.

TENSE BY BERTRAM BEERBAUM
BB100 LEVER HANDLE SATIN BLACK

FIRM LUXURY

Natuurlijke, gedurfde materialen komen in de villa terug. Het mat zwarte deurbeslag in combinatie met de witte, houten deuren geeft de entree naar de eetkamer aan de voorzijde van de villa een luxe en stoere uitstraling.

The mansion was designed with natural and bold materials. The satin black door fittings combined with white, wooden doors gives the entrance to the dining room at the front of the mansion a luxury yet rustic look.

SQUARE
LSQ160A FLUSH PULL SATIN STAINLESS STEEL

ARCHITECTURAL ART

Zoals de mix van natuursteen met de roestvast stalen kraan, die rechtstreeks uit het plafond komt, de wc tot een uniek object maakt, transformeert de strakke handgreep de met leer beklede schuifdeur tot een kunstwerk.

Just as the mix of stone with the stainless steel tap that descends directly from the ceiling turns the toilet into a unique object, so the sleek handle transforms the leather-clad sliding door into a work of art.

CONNECTED

Het stoere karakter van de Tense-serie loopt als een rode draad door het huis. Een sterk stukje hardware dat verschillende materialen en ruimtes verbindt.

The rugged character of the Tense series is found throughout the house. These are sturdy fittings that connect different materials and spaces.

SQUARE BY JAN DES BOUVRIE
JB100 LEVER HANDLE SATIN BLACK

‘T GOOI

De prachtige villa is gelegen in ‘t Gooi in Nederland. De streek ‘t Gooi omvat de gemeenten Blaricum, Gooise Meren, Laren, Huizen en Hilversum en geniet vooral landelijke bekendheid vanwege haar prachtige omgeving en de zeer exclusieve woningen die er te vinden zijn.

De villa ademt karakter en historie. Het huis, luisterend naar de naam ‘Villa Bergerac’, en ontworpen door architect J.H.W. Leliman, is oorspronkelijk als zomerhuis gebouwd in 1910 voor de Franse familie Boissevain. De woning, met de omliggende bosrijke omgeving, werd door hen optimaal benut voor het uitoefenen van één van hun grote passies: paardrijden.

This beautiful villa is situated in the ‘t Gooi region in the Netherlands, which includes the municipalities of Blaricum, Gooise Meren, Laren, Huizen, and Hilversum. The region is renowned for its beautiful landscape and exclusive real estate.

This villa exudes character and history. Designed by the architect J.H.W. Leliman, it was originally built as a summer house for the French Boissevain family in 1910. The wooded areas around the house made it ideal for horse-riding, one of the family’s favourite past-times.

SQUARE BY JAN DES BOUVRIE

In de eerste helft van 2017 ontwierp Jan des Bouvrie voor FORMANI serie deurbeslag, onderdeel uitmakend van de bestaande Square serie. De bewoners van de villa, altijd op zoek naar leuke toevoegingen en tevens trouwe aanhangers van de designstudio van Jan des Bouvrie, waren dan ook de eersten die de serie door het hele huis hebben toegepast.

In the first half of 2017 Jan des Bouvrie developed the FORMANI series of door fittings as part of the existing Square collection. The occupants of the villa, always on the look-out for fun new additions and also loyal fans of the Jan des Bouvrie design studio, were the first people to have the collection used throughout their home.

50 YEARS OF RENOVATION

De huidige bewoner woont er al bijna vijftig jaar en de villa heeft minstens zoveel verbouwingen achter de rug. Toch is de stijl van de oorspronkelijke architectuur altijd bewaard gebleven. Het huis straalt geborgenheid uit door zijn vele kleine ruitjes en zijn vorm. Wat er ook met het huis gebeurt, het karakter van het huis blijft altijd overeind.

The current occupant has been living here for almost fifty years and the villa has undergone at least that many renovations. Yet the style of the original architecture has always been retained. With its numerous small windows and its shape, the house exudes a feeling of safety. Whatever happens to it, the character of this villa will remain intact.

LUXUREOUS FACILITIES

Los van de standaard ruimtes die we in elk huis doorgaans tegenkomen is het huis uitgerust met alle denkbare luxe faciliteiten zoals bijvoorbeeld een binnenzwembad, een gym, een sauna en een bar.

Apart from the standard spaces found in most homes, this villa also features the most luxurious elements you can imagine such as an indoor swimming pool, a gym, a sauna and a bar.

SQUARE BY JAN DES BOUVRIE

STAINLESS STEEL AND BLACK

De deurkrukken die toegepast zijn, komen terug in twee finishes namelijk mat zwart en gepolijst roestvast staal. Beide kleuren combineren uitstekend met de witte deuren en het witte interieur. Los van deze twee finishes is de Square collectie van Jan des Bouvrie ook leverbaar in het mat roestvast staal en wit.

The door handles were finished in black and polished stainless steel. Both of these colours work perfectly with the white doors and the white interior. Apart from these two finishes the Square collection by Jan des Bouvrie is also available in satin stainless steel and white.

THE WHITE ISLAND

DITA Building ontwierp en ontwikkelde in 2013 deze droomvilla op Ibiza. Het ongecompliceerde leven dat zo kenmerkend is voor het leven op dit Spaanse eiland, komt terug in het minimalistische design met de vele open ruimtes gecentreerd rondom het zwembad. De toegepaste Square-hardware in roestvast staal past bij de eenvoud van de witgekalkte finca's waaraan Ibiza de naam Isla Blanca, oftewel 'het witte eiland', ontleent.

DITA Building designed and developed this dream mansion in Ibiza in 2013. The uncomplicated lifestyle that is characteristic of life on this Spanish island is reflected in the minimalist design with its multitude of open spaces centred around the swimming pool. The Square series of door fittings in stainless steel matches the simplicity of the whitewashed fincas which have earned Ibiza the name of Isla Blanca (white island).

CUBIST ARCHITECTURE

DITA Building ontwierp en ontwikkelde in 2012 deze bijna kubistische villa gelegen in de bergen van het prachtige Ibiza. Het minimalistische, vierkante design van de gebruikte doorware sluit naadloos aan bij de lijnen die in het huis, het zwembad en de trappen terugkomen. Een object dat de schoonheid van de weelderige natuur en de weidse blik versterkt.

In 2012, DITA Building designed and developed this cubist-inspired mansion nestled in the mountains of Ibiza. The minimalist, square design of the door fittings seamlessly integrates with the lines of the house, swimming pool, and staircases. This is a property that enhances the lush natural surroundings and panoramic view.

A photograph of a modern interior space, likely a living room. The room features large, floor-to-ceiling windows with black frames, offering a view of a lush green landscape with trees and a lawn. A white, minimalist fireplace is built into a wall, with a fire burning inside. The floor is a light, neutral color. In the foreground, a dark, textured rug is partially visible. The overall atmosphere is bright and airy.

QUADRATIC MINIMALISM

Dat wat het huis eigen maakt, begint al bij de voordeur van de woning in Noord-Brabant. De extreem grote voordeur met de extreem grote voordeurknop uit de Square serie is een voorproefje van het minimalistische karakter dat het project kenmerkt.

Starting at the entrance, the unique features of this house in North Brabant are immediately discernible. The massive front door with the massive front door knob from the Square series is just the prelude to the minimalist character that defines this project.

SQUARE

SQUARE
LSQWC50 PRIVACY SET SATIN STAINLESS STEEL

HIDE IT

Voor dit project koos Bob Manders om met zo min mogelijk verschillende materialen te werken. De minimalistische aanpak wordt versterkt doordat enkel bewegende onderdelen in het zicht zitten. Veel details zijn weggewerkt, zoals de kozijnen die verstopt zitten achter de wanden.

For this project, Bob Manders opted to work with as few different materials as possible. This minimalist approach is strengthened as only moving parts can be seen. Many of the details have been carefully hidden away, like the door and window frames that have been hidden in the walls.

MAXIMALISING MINIMALISM

In lijn met de minimalistische opzet, is gekozen voor de Square serie van FORMANI®. Een serie die het minimalistische karakter van de woning versterkt.

The Square series by FORMANI® was selected for this design to maintain the minimalist look and feel and enhances the minimalist character of the home.

SQUARE
LSQ150 FLUSH PULL SATIN STAINLESS STEEL

SQUARE
LSQ231 SLIDING DOOR HANDLE SATIN STAINLESS STEEL

EXPOSE

Waar de woning richting het openbaar gebied, zoals wegen en bebouwing, is gesloten, staat deze, door toepassingen als grote schuifpuien, optimaal in verbinding met het landschap. Dit landschap krijgt dankzij de minimalistische opzet de volle aandacht.

While the home is closed off from public spaces such as roads and other buildings, it is optimally connected to the landscape by the integration of large sliding patio doors. Thanks to the minimalist design, the landscape takes centre stage.

SQUARE
LSQ231 SLIDING DOOR HANDLE SATIN STAINLESS STEEL

MIAMI MODERN BEACH STYLE

Waar binnenshuis diagonale zichtlijnen zijn toegepast, doet het exterieur denken aan Miami-modern style. De grote muren dienen als soort van projectiewanden die de schaduwen van de bomen weerspiegelen zoals ook het zicht in de woning op de natuur is gericht.

While diagonal sight lines are used indoors, the exterior is reminiscent of Miami Modern style. The large walls serve as projector screens that reflect the shadows of the trees just as the view of the home is directed at the natural landscape.

THE MID-90S

Dit prachtige historische gebouw met authentieke elementen is gelegen in het centrum van Barcelona. Eind 2016 werd de woning uit 1901 door architect Lázaro Rosa-Violán gerenoveerd. Daarbij maakte hij gebruik van de doorware die hij zelf voor FORMANI® ontwierp.

Het appartement weerspiegelt de liefde van de architect voor design uit het midden van de jaren negentig. De zachte uitstraling en subtiële lijnen die de Bosco-serie kenmerken, sluiten naadloos aan bij deze tijdgeest.

This beautiful historic building with its authentic elements is located in the heart of Barcelona. End 2016 this home, which dates to 1901, was renovated by architect Lázaro Rosa-Violán. He used the door fittings that he had designed for FORMANI®.

The apartment encapsulates the fondness of the architect for mid-90s design. The soft appearance and subtle lines that characterize the Bosco series seamlessly blend in with the zeitgeist of this decade.

HISTORIC ARTIFACTS

Lázaro Rosa-Violán is een verzamelaar van oude dingen. Objecten uit alle delen van de wereld zijn in het appartement terug te vinden. Objecten die, samensmeltend met de doorware, bijdragen aan de warme sfeer.

Lázaro Rosa-Violán collects old objects. The apartment is filled with objects from all over the world that fuse with the door fittings to create a warm and welcoming atmosphere.

BELOVED DOORWARE

Naast een passie voor designinvloeden uit het midden van de jaren negentig en het verzamelen van oude spullen speelt ook hond Bosco een belangrijke rol in het leven van de designer. De doorwarecollectie die Lázaro Rosa-Violán voor FORMANI® ontwierp, draagt dan ook de naam van zijn maatje.

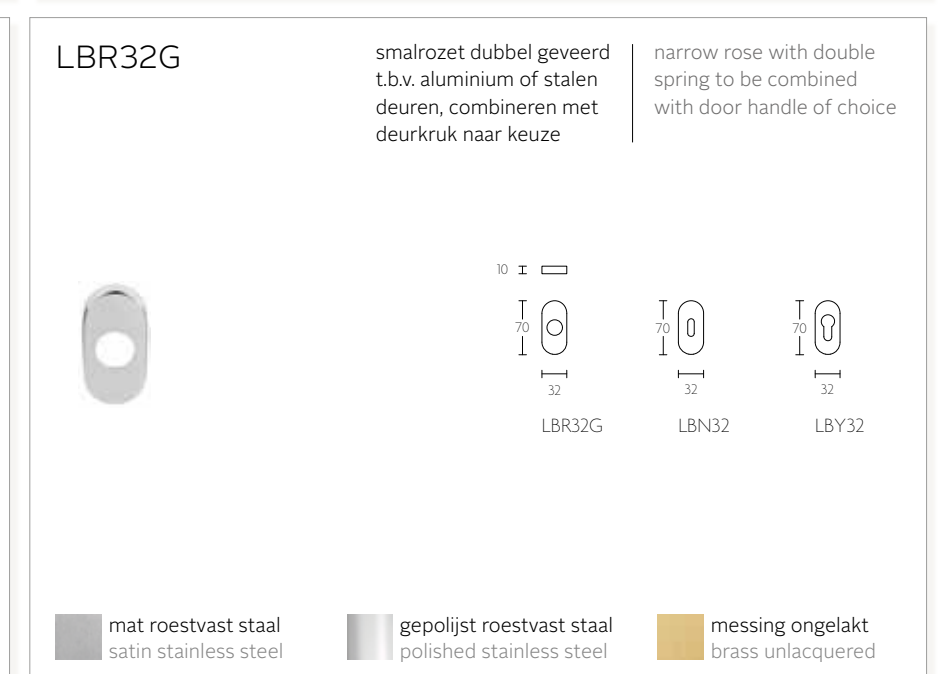

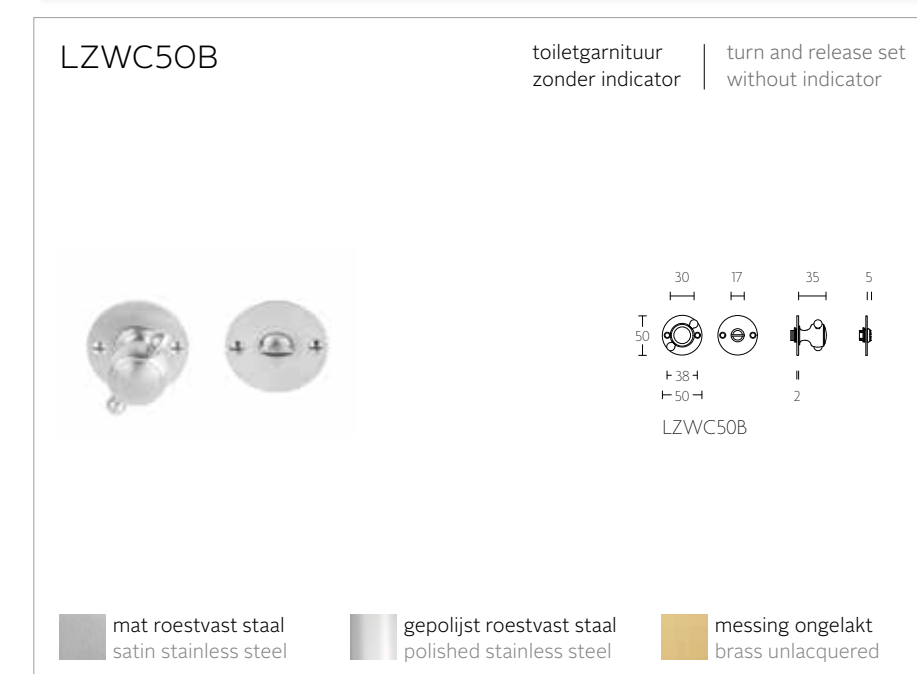

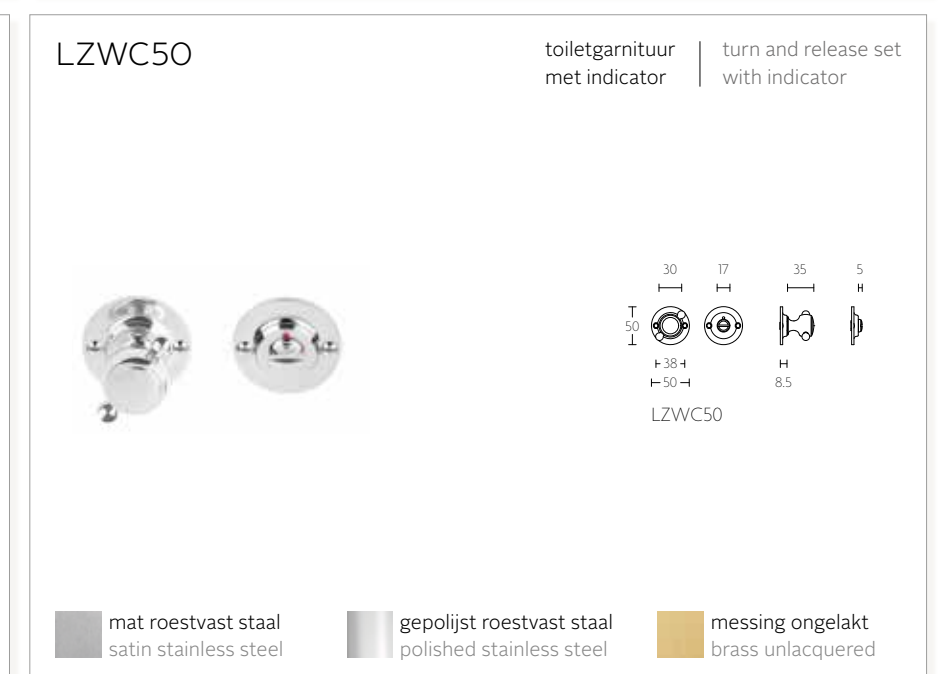

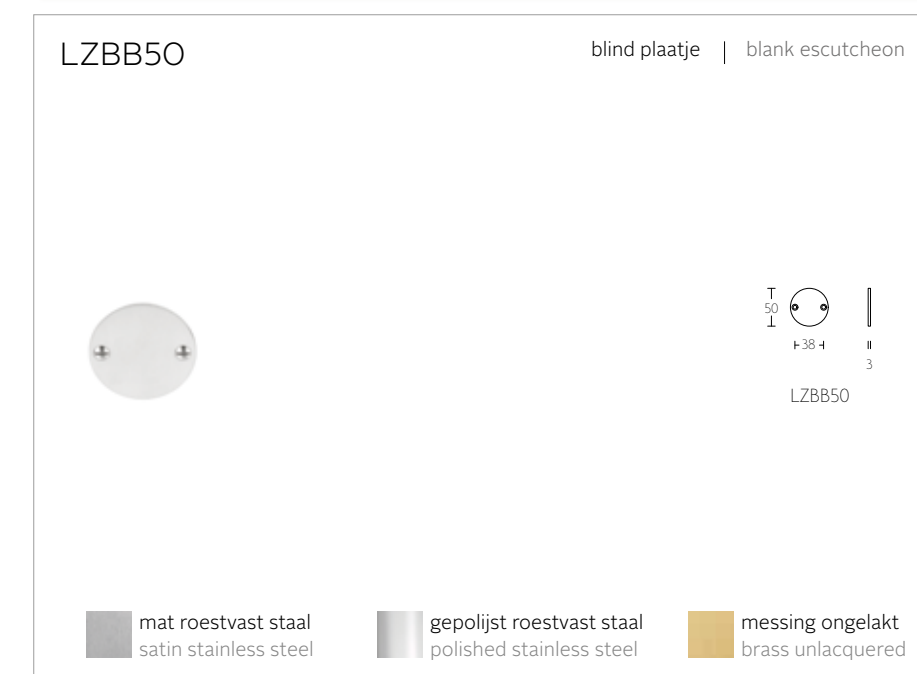

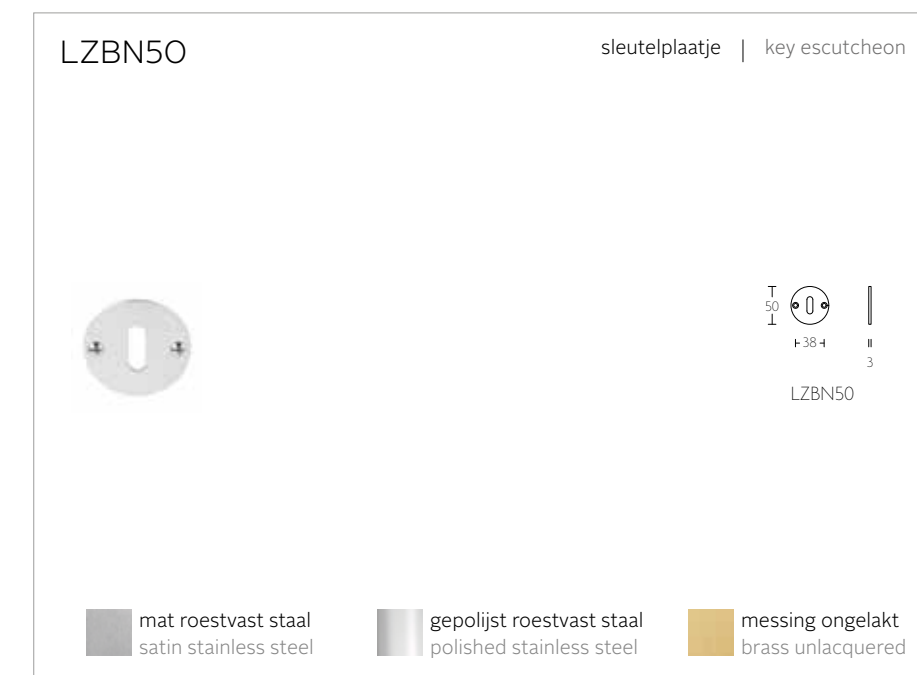

In addition to his passion for design from the 1990s and collecting old things, dog Bosco also holds a special place in the heart of this designer. The door fittings collection that Lázaro Rosa-Violán designed for FORMANI® was named after his much-loved pet.

BOUTIQUE HOTEL

21 Nettleton is een luxueus boutique hotel dat bestaat uit zes zeer exclusieve kamers. Hoewel deze zijn ingericht in diverse stijlen is het de klassieke, authentieke stijl die de boventoon voert. Het pareltje is de 'Presidential Penthouse Suite'. Dit weelderige penthouse met een oppervlakte van 250 m2 heeft een 360-graden uitzicht op de oceaan en de bergen en is voorzien van meerdere balkons en twee badkamers.

21 Nettleton is a luxury boutique hotel that features six highly exclusive rooms. Although these rooms have been furnished in a variety of styles, the predominant style is classic and authentic. The gem of this hotel is its Presidential Penthouse Suite, an opulent 250 m2 penthouse that boasts panoramic ocean and mountain views, several balconies, and two bathrooms.

SOUTH AFRICA'S MOST EXCLUSIVE

21 Nettleton is gelegen in Clifton, een welvarende voorstad van Kaapstad, Zuid-Afrika. In deze exclusieve voorstad vind je de duurste huizen van Zuid-Afrika, waaronder prachtige woningen op kliffen met een eindeloos uitzicht op de Atlantische Oceaan.

Nettleton 21 is situated in Clifton, an affluent suburb in Cape Town, South Africa. This exclusive residential area is home to the most expensive real estate in South Africa, with dwellings nestled on cliffs that offer sweeping views of the Atlantic Ocean.

ELEGANCE STYLE AUTHENTICITY

Onlangs zijn een tweetal kamers uitgerust met FORMANI's Bosco collectie waarbij de volledige omvangrijkheid van de serie is toegepast, namelijk deurkrukken, toiletgarnituren, grepen, meubelknoppen en raamkrukken. Lázaro Rosa-Violán's creatie sluit qua elegantie, stijl en authenticiteit naadloos aan bij het interieur van 21 Nettleton.

Two of the hotel's rooms were recently revamped using FORMANI's Bosco collection. The full spectrum of the collection was used, including door handles and window handles, bathroom fittings, and furniture knobs. Lázaro Rosa-Violán's creations fit in seamlessly with the interior of 21 Nettleton in terms of elegance, style, and authenticity.

MUSEUM QUARTER

Deze sfeervolle woning is gelegen in 'Duivelseiland', onderdeel van de bekende wijk 'Oud Zuid' in Amsterdam. De wijk staat bekend vanwege de talrijke musea waaronder het Van Gogh Museum, Rijksmuseum en het Stedelijk Museum. Typend zijn de authentieke panden; zo ook deze woning die een samenvoeging vormt van wat ooit twee winkeltjes waren.

This stylish home is located in 'Duivelseiland,' part of Amsterdam's well-known 'Oud-Zuid' district. Famous as being the home of many museums, including the Van Gogh Museum, the Rijksmuseum, and the Stedelijk Museum, it is also well known for its authentic buildings such as the one here – a conversion of what were once two small shops.

INTERNATIONAL BRANDS

De woning wordt door niemand minder dan Edward van Vliet bewoont; één van Nederlands meest bekende en succesvolle ontwerpers van dit moment. Buiten het feit dat het pand als privéwoning wordt gebruikt, dienen de ruimtes tevens als een soort van laboratorium waarbij de nieuwste productontwerpen van Edward van Vliet gebruikt en getoetst worden. Zo zijn er diverse topstukken te bewonderen uit collecties van o.a. Moroso, Kvadrat, Moooi, en vele andere topmerken waar Edward van Vliet producten voor ontworpen heeft.

This particular residence is home to none other than Edward van Vliet, one of the Netherlands' best-known and most successful designers of the moment. As well as being his personal living space, the residence serves as a sort of laboratory to test his latest product designs by putting them to practical use. The house features numerous eye-catching showpieces designed by Van Vliet for Moroso, Kvadrat, Moooi, and many other leading brands.

NOUR HARDWARE

Het spreekt voor zich dat ook de in 2015 door Edward van Vliet ontworpen serie deurbeslag 'Nour' van FORMANI vertegenwoordigd is. Pronkstukken zijn de twee espagnoletten die de twee deuren naar de tuin verfraaien. Buiten de espagnoletten is ook de rest van de serie, zoals deurkrukken, meubelgrepen, jashaken, grepen en toiletgarnituren, conceptmatig toegepast. De kleurenmix van goud en zwart en de subtiele vormen van Nour geven karakter aan de deuren én aan de woning als geheel.

Developed for FORMANI, his Nour range of door fittings is a prominent part of the collection and features a pièce de résistance in the pair of espagnolette bolts that grace the two garden doors. Naturally, the lever handles, cabinet handles, coat hooks, and toilet locks form part of the overall concept alongside the espagnolette bolts. Nour's colour combination of gold and black, together with its subtle lines, add character not just to the doors but to the entire home.

LINK WITH THE PAST

De deurkrukken, in mat goud met zwarte handvaten, vormen een knipoog naar het verleden waarin de deuren vaak voorzien waren van klassieke deurkrukken met zwarte (vaak ebbenhouten) handvaten. Nour is dan ook een klassiek-moderne variant van wat door velen een jaren '30 deurkruk wordt genoemd. Buiten de link met het verleden wordt met het design van Nour ook duidelijk een knipoog naar Azië gemaakt, waar Edward veel inspiratie vandaan haalt.

The lever handles in matt gold with black grips remind us of a time past when doors were fitted with traditional black, often ebony handles. As such, Nour can be seen as a classic yet modern variant of what many people would call a 1930s door handle. But along with this link to history, there is also a clear Asian influence – a region from which Edward van Vliet draws much of his inspiration.

FLEXIBILTY

Eén van de sterke punten en typische kenmerken van Nour is de flexibiliteit die het ontwerp biedt. Zo is de serie modulair opgebouwd waarbij de handvaten vervangbaar zijn en andere kleuren toepasbaar zijn. Hierdoor zijn een aantal prachtige combi's van gepolijst rvs, PVD mat goud, mat zwart en mat wit beschikbaar.

One of Nour's particular characteristics, and also one of its strengths, is the design's inherent flexibility. The range has a modular structure, so that the grips can be replaced and other colours substituted. This allows for a variety of wonderful combinations of polished stainless steel, PVD matt gold, matt black, and matt white.

A CREATIVE RETREAT IN NATURE

In het Noord-Hollandse Bergen, rustend tegen de adembenemende duinen, is het eeuwenoude, idyllische landgoed Het Hof gelegen. Het landgoed met het monumentale pand ademt geschiedenis en is tot vandaag de dag een geliefde ontmoetings- en belevingsplek. De hof tuin zorgt voor een betoverende oase van rust.

In the town of Bergen in North Holland, nestled between the magnificent dunes, lies the historic and picturesque Het Hof country estate. This country estate is home to a monumental building that exudes a sense of history and remains a popular place to meet and take in the beautiful surroundings to this very day. The garden on the estate is an enthralling oasis of tranquillity.

INFLUENCES FROM THE PAST

Naast een rijke natuur zijn kunst en cultuur kenmerkend voor Bergen. De invloed voert terug naar de kunstenaars die zich in het begin van de twintigste eeuw in Bergen vestigden. Deze kunstenaarskolonie ontwikkelde zich in de eerste helft van de vorige eeuw tot invloedrijke groep. De schilders uit die tijd, waaronder John Rådecker en Charley Toorop, behoren tot de Bergense School. Behalve schilders herbergde Bergen bekende Nederlandse schrijvers, dichters en architecten. In de salons en op de patio's van de statige herenhuizen filosofeerden zij. Deze traditie vormt de basis van het concept van Edward van Vliet voor landgoed Het Hof.

Bergen is characterized by lush nature and a rich history of art and culture which can be traced back to the artists that settled in Bergen at the start of the twentieth century. This artists' colony became an influential group during this period. These painters which included famous Dutch artists such as John Rådecker and Charley Toorop defined the Bergen School of art. Bergen was also home to famous Dutch writers, poets, and architects. Here, these intellectuals would gather and ruminate in the salons and on the patios of stately mansions. This rich tradition is the concept used by Edward van Vliet for Het Hof country estate.

NOUR BY EDWARD VAN VLIET
 EV101P211 LEVER HANDLE PVD SATIN GOLD / SATIN BLACK

NEOCLASSIC REFLECTION

Voor dit project koos architect Edward van Vliet voor doorware die hij zelf voor FORMANI® ontwierp. Doorware die als een verborgen parel het concept polijst, of zoals Van Vliet het zelf omschrijft: 'My door fittings are the hidden gems of the architectural layers.' De neoklassieke stijl van de doorware voert terug naar de vervlogen tijden van de kunstenaarskolonie. De moderne uitstraling sluit aan bij de eigentijdse functie die Het Hof vandaag de dag vervult. De koperkleur weerspiegelt de omliggende natuur die zich met de seizoenen meebeweegt.

Het Hof is een neoklassiek herenhuis omgeven door prachtige tuinen. Het landgoed maakt deel uit van de blooming Groep. Kunst, cultuur en natuur komen in sterke mate in het interieurconcept terug. Een interieur dat aanmoedigt tot inspirerende ontmoetingen en momenten van reflectie.

Edward van Vliet selected the door fittings that he designed for FORMANI® for this project. And as Van Vliet explains, 'My door fittings are the hidden gems of the architectural layers.' The neoclassical style of the door fittings harks back to the time of the artists' colony. Yet, the modern look flawlessly integrates with the contemporary function of Het Hof. The copper reflects the surrounding landscape that moves and shifts with the seasons.

Het Hof is a neoclassical mansion surrounded by exquisite gardens. The country estate is part of the blooming hotel group. Art, culture, and nature are a dominant theme in the interior concept which encourages inspirational encounters and moments of reflection.

BOLD DESIGN

Dit huis in het Brabantse Oisterwijk is een ontwerp van de Nederlandse architect Bob Manders. Ook het gedurfde interieur is van zijn hand. Een interieur dat aansluit bij de karakteristieken van het huis, zijn eigenaar en de omgeving. Het ontwerp is echter meer dan een afgeleide van de drie, het moedigt de onderlinge dialoog aan. De doorware van FORMANI® vervult daarin een verbindende rol.

This house in Oisterwijk in North Brabant was designed by Dutch architect Bob Manders. The bold interior that matches the characteristics of the house, its owner, and the environment was also his creation. However, the design is more than just a derivative of these three elements. It encourages dialogue in which the door fittings by FORMANI® serve a linking purpose.

UNPREDICTABLE HARMONY

Het huis combineert de passie van de ontwerper voor innovatie met een zorgvuldig begrip van het verleden. Daarbij leunt hij op het Nederlandse erfgoed, zoals Rembrandts gebruik van licht, en combineert dit met de smaak van bekende meesters van Vitruvius tot Le Corbusier. Dit resulteert in onvoorspelbare maar harmonieuze ruimtes die overal ter wereld tot hun recht komen.

This house combines the passion of the designer for innovation with a respectful understanding of the past. To this end he is inspired by Dutch heritage such as Rembrandt's use of light which is combined with the styles of the famous masters from Vitruvius through to Le Corbusier. This has created unpredictable but balanced rooms that can be appreciated all over the world.

RIBBON BY BOB MANDERS
BM100 LEVER HANDLE SATIN STAINLESS STEEL

REALITY IS NOT WHAT IT SEEMS

Typerend is de minimalistische benadering van Bob Manders met een focus op elementen die op het eerste gezicht soms bijna onlogisch overkomen. Een zekere onvoorspelbaarheid die zorgt voor verrassende ontdekkingen. Zoals een draaiende deur die een kamer, die in eerste instantie leeg lijkt, transformeert tot een praktische ruimte vol boeken met een comfortabele sofa. Of een volledig witte wand die verandert in een kunstwerk wanneer het licht erop valt. De door Bob Manders ontworpen hardwarecollectie Ribbon sluit aan bij zijn werk. De eenvoudige vormgeving, strakke lijnen, asymmetrische draaibeweging en afwezigheid van een rozet weerspiegelen de handtekening van Bob Manders.

The minimalistic approach with a focus on elements that might appear illogical at first sight is characteristic of Bob Manders' style. This creates a sense of unpredictability that invokes exciting discoveries. This includes a revolving door that transforms a room that appears empty at first, into a practical space filled with books and a comfortable sofa, or a completely white wall that transforms into a work of art when light is cast upon it. The simple design, clean lines, asymmetrical turning movements, and the absence of a rose in the Ribbon collection of door fittings designed by Bob Manders, reflect his signature style.

RED DOT DESIGN AWARD

De hardware uit de Fold-serie sluit niet alleen aan bij de sfeer van de spa in Genk, maar is alom geprezen. De Fold-deurkruk is zelfs bekroond met de Red Dot Design Award. Het is een van 's werelds meest innovatieve deurkrukken ooit. Nooit eerder werd een deurkruk uit één deel gefabriceerd. Een deurkruk die bovendien het slot geruisloos bedient.

The fittings from the Fold series do not only match the character of the spa in Genk, but have been generally praised. The Fold door handle was even awarded the Red Dot Design Award and is one of the most innovative door handles that the world has seen. Never before was a door handle fashioned from one single part. This door handle also controls the lock without making a sound.

IN BALANCE

De doorware uit de Fold-serie lijkt te zweven. Het sierlijke ontwerp is in balans met de onderliggende, innovatieve kracht. Een balans die aansluit bij de aandacht voor lichaam en geest zoals men die vindt in de spa in Genk.

The door fittings from the Fold series appear to be floating. The ornamental design is balanced by the underlying, innovative force. This balance blends with the focus on body and mind found at the spa in Genk.

TIMELESS

INSPIRED BY BAUHAUS

Timeless. De naam verraaft al dat het gaat om een assortiment dat de tand des tijds doorstaan heeft. De serie bestaat stuk voor stuk uit producten van weleer die door FORMANI® nieuw leven zijn ingeblazen, al dan niet gecombineerd met een stukje hedendaagse techniek en functionaliteit. Een grote inspiratiebron voor de serie vormt het BAUHAUS instituut (opgericht door Walter Gropius in Weimar, 1 april 1919), één van Europa's grootste kunststromingen die ontstaan is tijdens het Interbellum.

De Bauhaus filosofie was kortgezegd eenvoud en functionaliteit. De details werden weggelaten en de essentie van een ontwerp werd zichtbaar in de schoonheid van eenvoud. 'Less is more', de wereldberoemde quote, is dan ook niet toevallig afkomstig uit de Bauhaus-periode. Ondanks dat het Bauhaus instituut slechts veertien jaar bestond, is het een begrip dat tot op de dag van vandaag invloed uitoefent op design en architectuur.

Ontwerpen van grote Bauhaus namen als Walter Gropius en Wilhelm Wagenfelt dienen als inspiratiebron voor de Timeless collectie, maar los van Bauhaus is ook de invloed van andere historische designers terug te vinden zoals onze eigen Wilhelm Marinus Dudok. Om te benadrukken dat het remakes zijn, zijn de deurkrukken vernoemd naar het jaartal waarmee verwezen wordt naar de oorsprong van het ontwerp. Authenticiteit vormt een rode draad door de hele serie waarbij in de ontwikkeling en productie rekening is gehouden met de originele kenmerken van vroeger, zoals gebruik van basismaterialen, finishes en zelf het kleinste detail zoals het gebruik van de juiste schroefjes van weleer.

Timeless. As the name implies, this assortment has stood the test of time. The series comprises products of years gone by that have been given a new lease of life by FORMANI®; some of which have been combined with elements of modern technology and functionality. Forming a great source of inspiration for the series was the BAUHAUS institute (founded in Weimar on 1 April 1919 by Walter Gropius), one of the largest art movements in Europe which arose during the Interbellum period.

To put it simply, the Bauhaus philosophy was based on simplicity and functionality. Details were omitted and the essence of a design was revealed through the beauty of simplicity. It is no coincidence then that the universally-known phrase 'Less is more' dates back to the Bauhaus period. Although the Bauhaus institute only existed for fourteen years, it put forward a concept that still exerts influence on design and architecture to this very day.

Designs by famous Bauhaus names such as Walter Gropius and Wilhelm Wagenfelt provide a source of inspiration for the Timeless collection but – aside from the Bauhaus – you can also see the influence of other historical designers, such as the Netherlands' own Wilhelm Marinus Dudok. To emphasize the fact that they are remakes, the door handles have been named after the year of their original design. Authenticity forms a common thread throughout the series, in which development and production take into account the original features of the past, such as the use of basic materials and finishes and even the smallest details, such as using the right screws.

REMODELLING THE PAST

Dit prachtige huis uit 1905 is gelegen in Barcelona. Met respect voor het authentieke karakter heeft de architect het huis in de wijk Pedralbes gerestaureerd of eigenlijk geherstructureerd. Om de sfeer van het verleden optimaal te bewaken, koos Alba Bagudà Pericot voor contrasterende, hedendaagse elementen. De doorware speelt daarbij een belangrijke rol.

This beautiful house in Barcelona dates back to 1905. The architect restored or, in fact, restructured this house in the Pedralbes district with a sense of respect for its authentic character. In order to treasure the historic character of the house, Alba Bagudà Pericot selected contrasting contemporary elements. The door fittings are an important aspect of this design.

COMPLEMENTING CEILINGS FROM THE PAST

De keuze voor de Timeless-lijn van FORMANI® is een essentieel onderdeel van de filosofie die ten grondslag ligt aan het project. Het beslag complementeert de rijke pleisterplafonds en brengt de imposante kristallen lampen naar een hedendaags niveau. Het sluit bovendien aan bij het spel tussen zwart en wit dat is toegepast.

The selection of the FORMANI® Timeless line is an inherent part of the philosophy on which this project is based. The fittings complement the ornate plaster ceiling and brings the impressive crystal chandelier to a contemporary level. It also ties in with the interplay between black and white that has been used.

CONCEPT-ENABLING HARDWARE

De elegantie van de zwarte met glans nikkel hardware past bij de ingebrachte designelementen zoals de imposante zwarte, ijzeren wand die de eetkamer van de hal scheidt. Ook de vitrine, de witte marmeren haard uit Parijs en het beeld dat uit een antiekwinkel afkomstig is, maken deel uit van het zwart-witspel.

The elegance of the black and nickel fittings matches the added design elements such as the impressive black, metal wall that partitions the dining room. The display case, white marble hearth from Paris, and the statue purchased at an antique shop are a part of the interplay between black and white.

THE NETHER LANDS NEER CANNE

LOCATION: MAASTRICHT, THE NETHERLANDS
OBJECT: CHÂTEAU NEERCANNE
PHOTOGRAPHY: TYCHO MERIJN ROEST

400 | TIMELESS

FORMANI®
TIMELESS

PODIUM OF SURPRISE

Het aan de rand van Maastricht gelegen Château Neercanne is het oudste terrassenkasteel van Nederland. Het chateau met weids uitzicht over het Jekerdal bevindt zich op de grens met België. Ruim zestig jaar geleden werd het gerestaureerd. In de afgelopen decennia is Château Neercanne uitgegroeid tot een instituut. Het restaurant heeft al dertig jaar een Michelinster. Lunchrestaurant l'Auberge, de in mergel gehouwen grotzalen, de wijngaard, de wijnkelders en het adembenemende terras maken deel uit van de setting waarbinnen bevlogen gastheren en cuisiniers de gast centraal stellen.

Located on the outskirts of Maastricht, Château Neercanne is the oldest terraced castle in the Netherlands. This castle, which has a panoramic view of the Jekerdal valley, is situated on the Belgian border. About sixty years ago it was fully restored and in the decades that have since passed, Château Neercanne has become an institute in the region. The restaurant has held a Michelin star for thirty years. Lunch restaurant l'Auberge, the cave halls carved in the marl hillside, the vineyard, wine cellars, and the breathtaking terrace create a setting where guests are fully catered to by enthusiastic hosts and chefs.

TIMELESS
KO-1935 ESPAGNOLETTE BOLT SATIN NICKEL

SINCERE QUALITY

Geen fratsen, grappen en grollen. Château Neercanne, onderdeel van Oostwegel Collection, is puur en echt. Het chateau biedt met respect voor het verleden dagelijks een thuis aan 120 gasten. Het tijdloze, ingetogen karakter van de doorware uit de Timeless-serie van FORMANI® sluit naadloos aan bij de kwaliteit en stabiliteit die leidend zijn binnen het kasteel.

No frills or antics: Château Neercanne, which is part of the Oostwegel Collection, is refined and authentic. The castle hosts 120 guests every day with an air of respect for its long and illustrious past. The timeless and unassuming character of the door fittings of the FORMANI®Timeless series seamlessly matches the quality and durability that are leading in the castle.

THE BARRI GÒTIC

Op het Plaça Reial, het meest bekende en karakteristieke plein van Barcelona, ligt hotel DO; een 5 sterren gastronomisch boetiekhôtel dat in 2013 volledig werd gerenoveerd door Lázaro Rosa-Violán studio. Eén van FORMANI's meest gelauwerde concepten, Timeless serie 1934, werd door het hele hotel, in alle achttien luxe kamers, conceptmatig toegepast.

On Plaça Reial, one of Barcelona's best-known and most charming squares, stands Hotel DO – a 5* gastronomic boutique hotel that was completely renovated by Lázaro Rosa-Violán studio in 2013. One of FORMANI's most celebrated design ideas, the Timeless series 1934, saw itself used as an overall concept to adorn each of the hotel's eighteen luxury rooms.

SPAIN'S MOST EXPENSIVE

Palau Malagrida is een stijlvol gebouw gelegen aan de statige Passeig de Gràcia. De avenue is meer dan een kilometer lang en de duurste van Spanje. Hier zijn enkele van de meest gevierde architectonische objecten van Barcelona gelegen. Palau Malagrida, vernoemd naar de familie die het gebouw in 1906 liet bouwen, mag zich tot die objecten rekenen.

Palau Malagrida is a stylish building located on the stately Passeig de Gràcia. This avenue stretches over more than one kilometre and is the most expensive street in Spain. It is also home to some of the most celebrated architectonic properties in Barcelona. Palau Malagrida, named after the family that commissioned the construction of the building in 1906, is one of these properties.

SPECTRUM OF MODERNISM

Palau Malagrida is een schoolvoorbeeld van modernisme. Met de bewoners door de jaren heen verloor het gebouw aan rijke, authentieke elementen. Bij de start van de reconstructie in 2014 werd de begane grond omgetoverd tot 500 m² vastgoed en designspectrum.

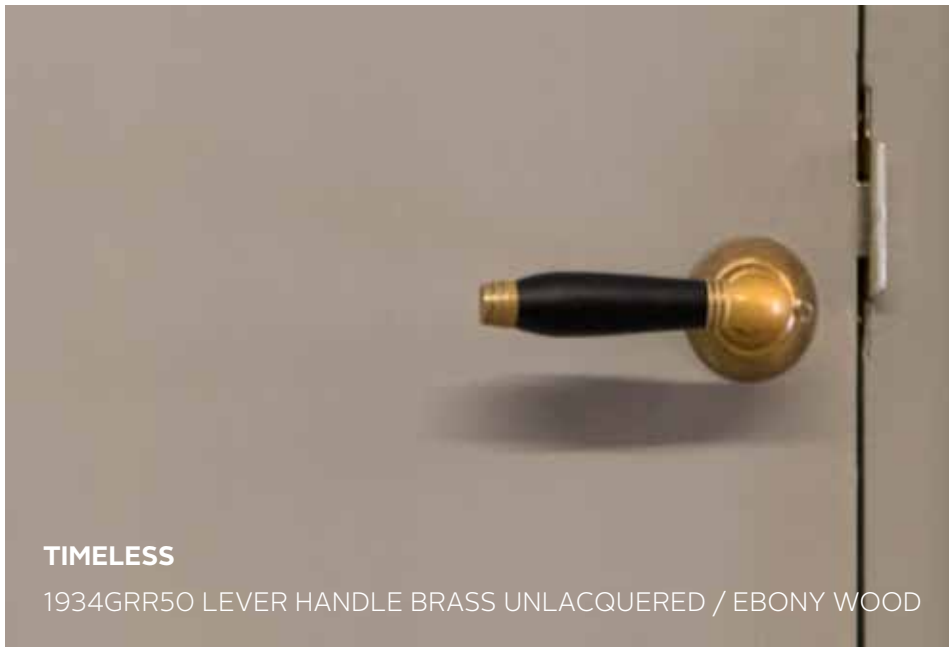

Bij de reconstructie van het gebouw stond het herstellen, behouden en verheffen van de artistieke en architectonische Catalaanse modernistische stijl centraal. Het ruimtelijk spel is daarbij een belangrijk element.

Palau Malagrida is a classic example of modernism. Over the years, the building lost many of its grand, authentic elements. At the start of reconstruction in 2014, the ground floor was transformed into a 500 m² property and design spectrum.

The focus of the reconstruction was the restoration, keeping, and enhancing of the artistic and architectonic Catalan modernist style. The spatial interplay is an important element in this.

EMPOWERING DOORWARE

Interieurarchitect Marta Casas koos voor dit project voor de elegantie van de Timeless-serie van FORMANI®. De esthetische vormgeving van de serie sluit aan bij de filosofie van het project om de architectonische herkomst naar de toekomst te verheffen.

For this project, interior designer Marta Casas, chose the elegance of the FORMANI® Timeless series. The aesthetic design of the series matches the philosophy of the project that focuses on bringing the architectonic provenance into the future.

FERROVIA

CHEMIN DE FER

De naam Ferrovia (vrij vertaald 'ijzeren weg') verwijst naar de spoorwegen. In het begin van de 20e eeuw werd dit type deurkruk namelijk veelal toegepast in de treinstellen in diverse West-Europese landen zoals België, Frankrijk en Italië. De meest bekende trein was wel de Orient Express waarvoor deze deurkrukken speciaal waren ontworpen. Met name het verticale T-krukje was erg in trek, destijds vaak in klein formaat.

In Frankrijk en delen van België is dit design ook wel beter bekend als 'Chemin de Fer'. De serie is gemoderniseerd en gefabriceerd uit massief roestvast staal (mat en gepolijst leverbaar) en gecompleteerd met de nodige accessoires, zoals diverse soorten raam- en meubelbeslag, waardoor alle functies binnen een huis (of ander object) met één en dezelfde stijl kunnen worden ingevuld.

The name Ferrovia (to be translated as 'iron road') refers to the railways. In the early twentieth century this particular style of door handle was often used in trains in European countries such as Belgium, France, and Italy. The most famous train of all was the Orient Express for which this door handle was specially designed. Especially the vertical 'T-Handle' was very popular in these trains.

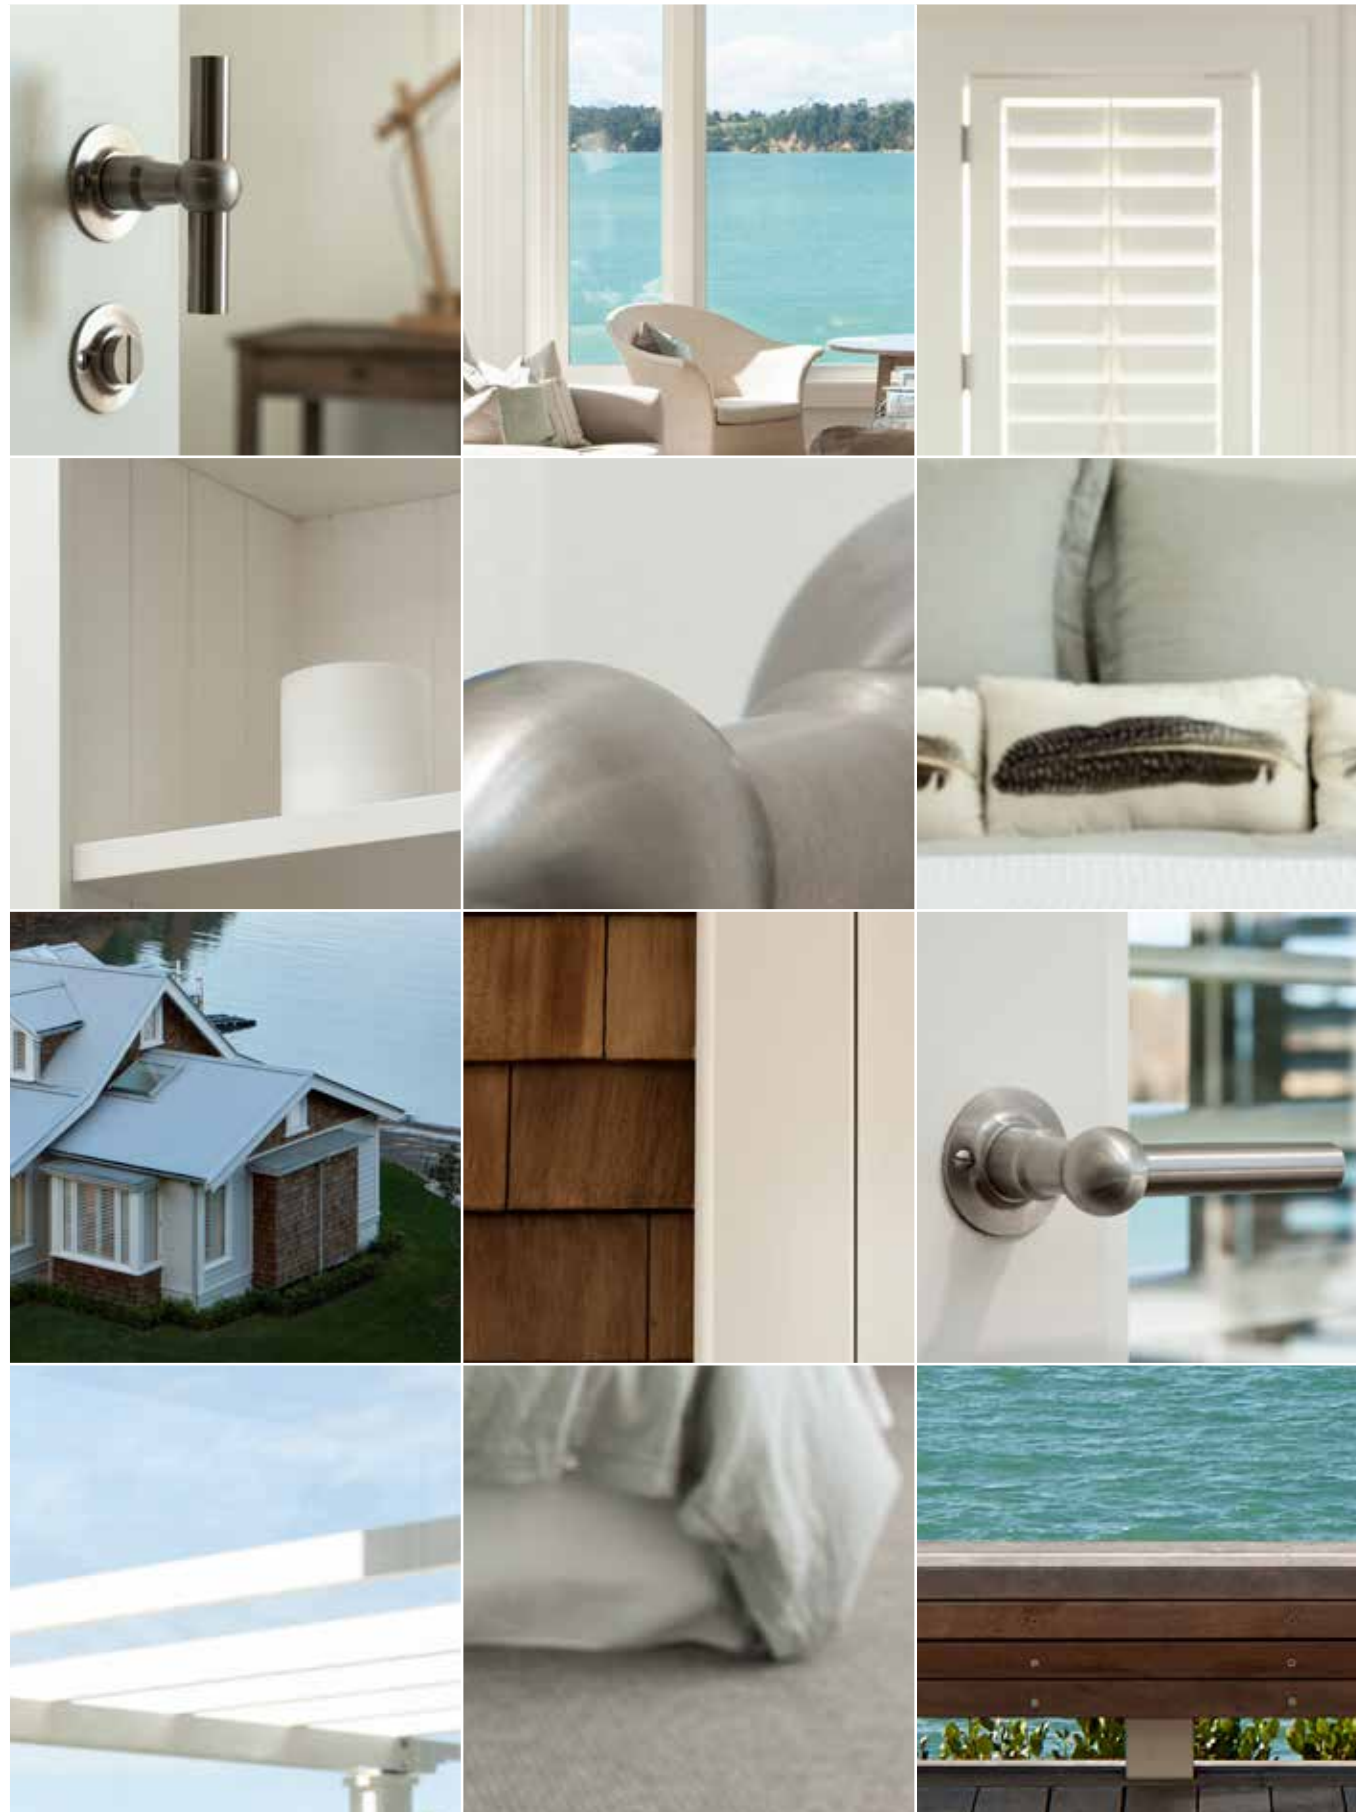

In France and parts of Belgium this design is known as Chemin de Fer. Especially the vertical T-handle was used a lot, mostly in the smallest size. This series has been modernized and has been produced from solid stainless steel (available in matte and polished) and has been complemented with the necessary accessories including different types of window and furniture fittings which enables all functions within the home, or any other object, to be completed in one single style.

COLONIAL RESIDENCES

In Pasadena Bay staan enkele prachtige houten vakantiehuisjes die het gevoel geven alsof de tijd heeft stilgestaan. De cluster van huisjes doet denken aan de vroeg-koloniale nederzettingen aan de Nieuw Zeelandse kust.

De iconische spitse boog doorbreekt het weidse uitzicht en kijkt uit over een fantastisch landschap, dat als het ware wordt omlijst door de boog. De overdekte veranda en het terras gaan naadloos op in de natuurlijke omgeving en de meubels kunnen worden verschoven zodat bezoekers in de zon en toch beschut kunnen zitten.

Pasadena Bay loges a series of finely crafted timber cottages that provide holiday residence with a relaxed pace reminiscent of an earlier time. The cottages are grouped in a village cluster common with early colonial habitation of coastal settlements on the New Zealand coast.

The iconic, gabled arch forms are extruded through the view axis to provide a range of habitation. They allow integration with the natural environment through the utilisation of protected porches and terraces, and flexible joinery arrangements to orientate to the sun or provide a range of shelter.

FERROVIA

FVL125/52 LEVER HANDLE SATIN STAINL. STEEL

THAT MARITIME FEELING

De combinatie van behandeld architecturaal metaal, decoratieve verlichting en hardware in een subtiële maritieme stijl past perfect bij de handvervaardigde vormen en versterkt het lokale gevoel. Deze eigentijdse interpretatie van een historische woning van de hand van ontwerper Christian Anderson versterkt de bijzondere charme en het karakter van Pasadena Bay.

The combination of worked architectural metal work, with decorative lighting and hardware in a subtle maritime style complement the crafted forms and reinforce the vernacular response. This contemporary interpretation from designer Christian Anderson of a historic habitation enhances a special charm and character of Pasadena Bay.

SUBTILE FINISH

Ontwerper Christian Anderson koos voor de Ferrovía-collectie vanwege haar tijdloze en klassieke stijl. Deze stijl draagt bij aan het kustgevoel van de huisjes, iets wat bovendien verder wordt versterkt door de subtiele lijnen van de geborsteld roestvast stalen afwerking.

Designer Christian Anderson chose the Ferrovía series because of its timeless and classic style. A style that complements the coastal feel of the property enhanced with the subtle lines of the selected brushed stainless steel finish.

FORMANI®
FERROVIA

FERROVIA
PB220 POLISHED STAINLESS STEEL

DESIGN DOORWARE

Bij deze exclusieve topwoning stond het creëren van een balans tussen de verschillende ruimtes en het optimaal benutten van natuurlijk licht centraal, met name in de woonruimtes die uitkijken op Central Park. Het resultaat is een rijke, internationale stijl met elementen van Europees design mede dankzij FORMANI®-details uit de Ferrovia collectie.

De opvallende ronde deurknoppen van de voordeuren zijn ontworpen door Piet Boon. De deuren lijken haast rond deze kunstwerken te zijn ontworpen. Het subtiele gebruik van details en kleur maken dit appartement aan Fifth Avenue tot een oase van verfijnde rust met een haast meditatieve, zen-achtige sfeer.

This exquisite residence is all about balance between the various rooms and making optimal use of the natural light, especially in the living spaces overlooking Central Park. The result is a rich, international style, with elements of European design with FORMANI® details from the Ferrovia series.

The striking, round doorknobs of the main doors are designed by Piet Boon. The doors almost seem to be designed around those pieces of art. The subtle use of details and color make this apartment on Fifth Avenue an oasis of refined tranquility, exuding an almost meditative, Zen-like atmosphere.

FERROVIA
FVT110/52 LEVER HANDLE POLISHED STAINLESS STEEL

TRAVELWARE

Het deurbeslag uit de Ferrovia-collectie, dat ook is gebruikt voor de deuren in de hal, is een eerbetoon aan het verleden. Ferrovia is Italiaans voor spoorweg. Dit design verwijst naar de deurkrukken die begin 20e eeuw veelal werden toegepast in treinstellen in heel Europa en verleent het appartement mede zijn internationale karakter.

The doorware from the Ferrovia serie, repeatedly used for the doors in the hallway, is a tribute to the past. Ferrovia means railway. The design buys into the doorware that was used in trains all over Europe at the beginning of Twentieth century and adds to the international style of the apartment.

ARCHITECT MATHIEU BRULS

SEDUCTIVE MODERNISM

Toen architect Mathieu Bruls begon met de verbouwing van de prachtige hedendaagse, witte stadswoning in centrum Maastricht, was deze niet meer dan een oud, lelijk gebouw. Met wat Mathieu Bruls architectuurtaal 'gedomesticeerd' modernisme noemt, transformeerde hij de stadswoning tot een groot gezinshuis met een spectaculair trappenhuis als middelpunt.

When architect Mathieu Bruls started renovation of the beautiful, contemporary, white town house in the centre of Maastricht it was little more than an old, ugly building. But, by employing what Bruls calls 'architectural domesticated modernism', he transformed this town house into a large family home with a spectacular stairwell as the focal point.

EDGY BY MATHIEU BRULS
EGP236SFC LEVER HANDLE SATIN STAINLESS STEEL

A HOUSE IN A HOUSE

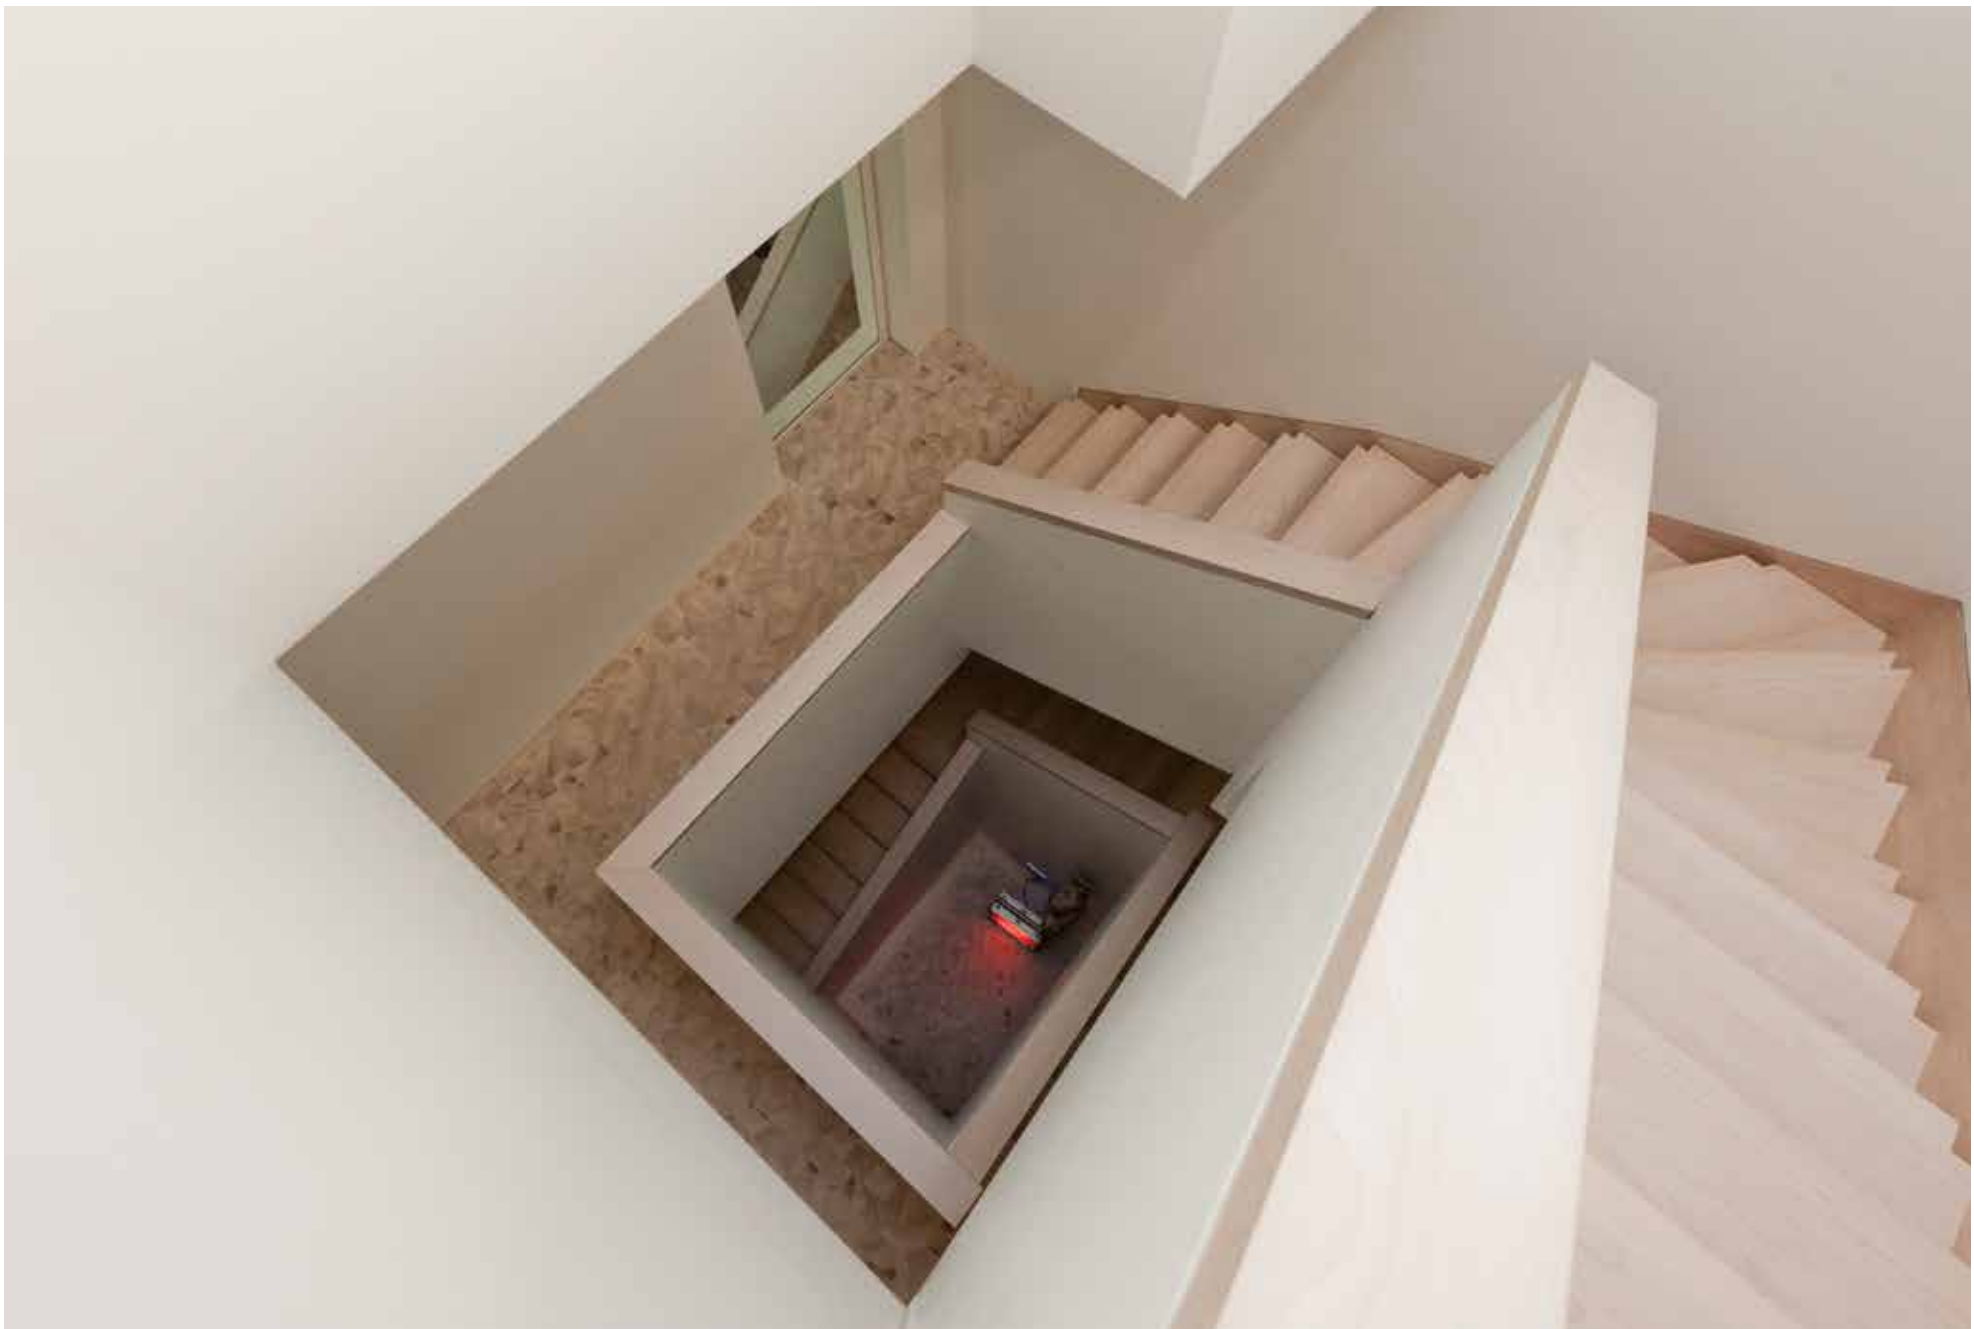

In de grote woonkamer met vide werd een tweede trap geconstrueerd welke leidt naar een werkruimte en ouderlijk domein op de eerste verdieping. Hiermee is in het huis een plek ontstaan die doet denken aan een afgezonderd appartement.

In the large open living room a second stairs was constructed which leads to a study and parental domain on the first floor. This created a space that functions as a detached apartment.

CONCEPTUAL FOCUS

Voor het project koos Mathieu Bruls de doorware serie Edgy. Deze collectie, die hij zelf voor FORMANI® ontwierp, oogt als de directe vertaling van een conceptschets. De vertaling is een antwoord op de maatschappelijke stromingen; doen en maken met een focus op het meest noodzakelijke. Een focus die enerzijds bijdraagt aan economische optimalisatie en anderzijds, vergelijkbaar met meditatie, inzicht en berusting brengt.

Mathieu Bruls selected the Edgy series of door fittings for this project. This collection, which he designed for FORMANI®, is a direct visualization of his concept sketch. This visualization is a response to social streams; effecting and creating with a focus on only that which is necessary. This focus also contributes to economic optimization on the one hand and, on the other hand, just like meditation, brings insight and tranquillity.

BASICS
LBII-19 LEVER HANDLE SATIN BLACK

ONCE UPON A TIME

Hoewel de oorsprong van Withuishof onbekend is, kent dit prachtige 17e-eeuwse object een rijke geschiedenis. Zo werd de hoeve in 1801 aangrijpend vernieuwd, nadat twee dochters van de familie Sleypen met twee zoons van de familie Schoenmaeckers trouwden. Een verbintenis die betekende dat het familiekapitaal van twee families samensmolt.

Although the origins of the Withuishof villa remain unknown, this stunning seventeenth-century building has a rich history. The estate underwent extensive renovation in 1801, after two Sleypen daughters married two Schoenmaeckers sons – a union that combined and consolidated the two family fortunes.

BASICS
LBII-19 LEVER HANDLE SATIN BLACK

FEEL THE SPIRIT

Van het rijke interieur, waarvan met zekerheid delen zijn ontworpen door de Maastrichtse architect Mathias Soiron, heeft maar weinig de tand des tijds doorstaan. Slechts enkele Lodewijk XVI-stijlelementen zijn bewaard gebleven. De combinatie van deze elementen met hedendaagse meubelen en eigentijdse objecten geeft de hoeve een niet te kopiëren look.

Unfortunately, much of the interior – parts of which were almost certainly designed by an architect from Maastricht; Mathias Soiron – did not stand the test of time. A few Louis XVI style elements are the only remaining artefacts. These elements, paired with the modern furniture and contemporary objects, lend the estate an air that cannot be equalled or rivalled.

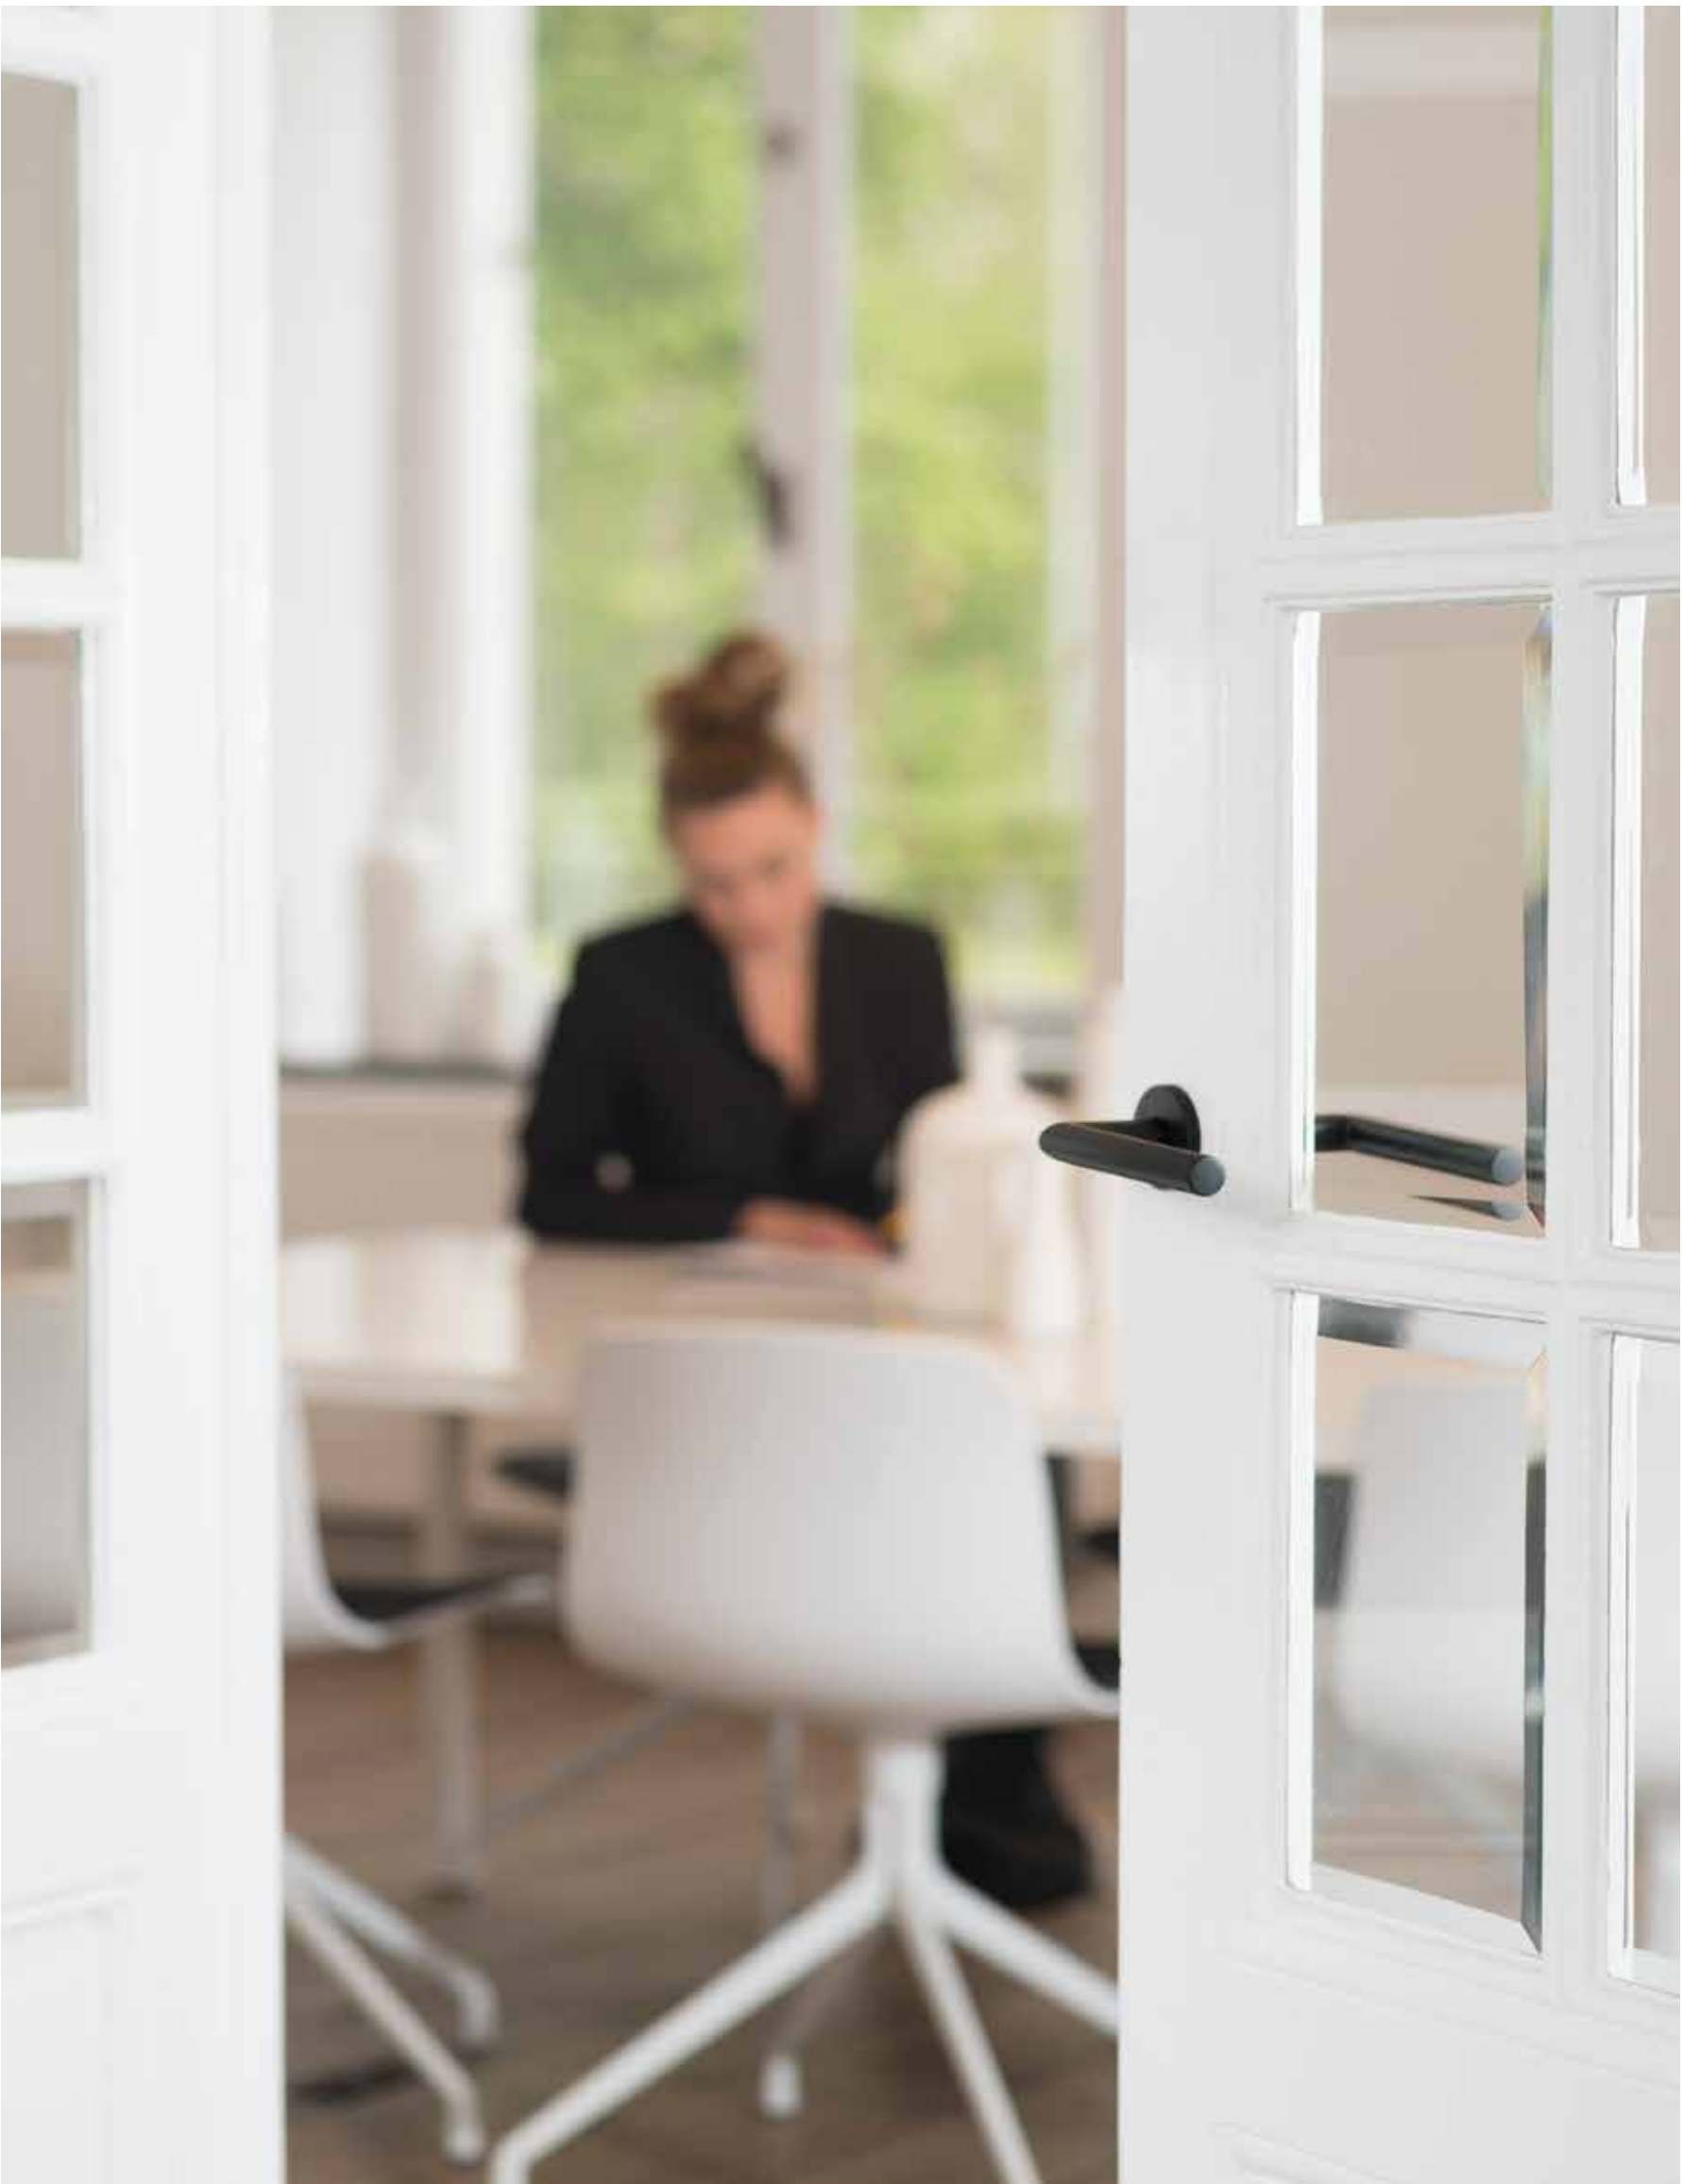

BASICS
LBII-19 LEVER HANDLE SATIN BLACK

URBAN WORKSPACE

Het neoclassicistische karakter van dit rijksmonument is te danken aan verbouwingen aan het eind van de 19e eeuw. Deed het landhuis, aan de rand van Maastricht, in de vorige eeuw dienst als buitenverblijf voor de Zusters Ursulinen, toverde de huidige eigenaar het om tot een eigentijdse en inspirerende verzamelplek voor bedrijven.

The neoclassical design of this national heritage building is the result of renovations in the late nineteenth century. The country estate on the outskirts of Maastricht, which once served as a holiday home for the Order of the Ursulines, was transformed by the current owner into a contemporary and inspiring meeting place for companies.

A man's

LBWC50 PRIVACY SET SATIN BLACK

CRISP AND CLEAR DOORWARE

De zwarte doorware uit de Basics serie past bij het schaakspel van de zwart witte vloeren. De no-nonsense vormgeving van de doorware laat de eeuwenoude schoonheid van het gebouw spreken en sluit naadloos aan bij het eigentijdse karakter. In deze setting ontpopt de Basics serie een veelzijdigheid die te vergelijken is met de verscheidenheid van de in Withuishof gevestigde bedrijven.

The black door fittings from the Basics series complement the black-and-white checked floors beautifully. The clean design of the door fittings showcases the centuries-old beauty of the building and fits seamlessly with the contemporary character. In this setting, the Basics series offers a versatility that mirrors the diversity of the companies housed within.

715 BEDS AND 5.000 STUDENTS

Het Maastricht Universitair Medisch Centrum+ is de overkoepelende naam voor de samenwerking tussen het Academisch ziekenhuis Maastricht (azM) en de Universiteit Maastricht (UM). In dit academische ziekenhuis met 715 bedden werken circa 7.000 mensen en 5.000 studenten.

De kerntaken van Maastricht UMC+ zijn patiëntenzorg, onderwijs en onderzoek. Het ziekenhuis maakt deel uit van de Brightlands Health Campus en onderscheidt zich (inter)nationaal door de focus op preventie. Er is dus aandacht voor meer dan alleen gezondheidsherstel.

Maastricht University Medical Centre+ (Maastricht UMC+) is the umbrella term for the partnership between Academic Hospital Maastricht AZM and Maastricht University. This academic hospital counts 715 beds and has 7,000 staff and 5,000 students working here.

The focus areas of Maastricht UMC+ are patient care, education, and research. The hospital is part of the Brightlands Health Campus and is internationally distinguished by its focus on prevention. This means that attention is paid to more than the recovery of health alone.

BASICS

LBS-K KNOB SATIN STAINLESS STEEL

WHEN IT GETS TOUGH

Het Maastricht UMC+ koos voor de doorware uit de Basics collectie van FORMANI®. De speciaal voor het ziekenhuis ontwikkelde Basics Solide serie is een antwoord op het intense en soms hardhandige gebruik waaraan beslag in een dergelijke omgeving dient te voldoen, denk alleen al aan bedden die in een ziekenhuis langs de deuren schuren.

De Basics Solide serie is gemaakt uit extra dikwandig buismateriaal en voorzien van een massieve, ofwel solide, nek op een 3mm dik schild. De bevestiging van de kruk op een schild met speciale glijlagers garandeert langdurig, geruisloos gebruik. Stevige M5 bouten zien toe op een degelijke bevestiging. De kwaliteiten van deze serie blijven niet onopgemerkt. Er zijn steeds meer gezondheidscentra en scholen die vanwege het duurzame karakter voor deze serie van FORMANI® kiezen.

Maastricht UMC+ chose the door fittings from the FORMANI® Basics collection. The Basics Solide series was developed specially for the hospital and serves as a solution for the hardy wear that fittings in such surrounding have to endure, such as hospital beds being pushed against doors as they're being moved through the hospital.

The Basic Solide series was made of extra thick-walled tubing and features a solid neck on a 3 mm-thick plate. The attachment of the handle on a plate with special sliding bearings guarantees long-term use without making a sound. Solid M5 screws ensure that it is always properly attached. The excellent features of this series have not gone unnoticed and an increasing number of health centres and schools are choosing this series by FORMANI® for its long-lasting quality.
